

I live in a rural area and do not have much of a choice for broadband service and cell phone service and what we do have is POOR service. I fully support Lightsquared and what they are doing to give the consumers options, better service, and to be connected as the highly populated areas are. I believe in Lightsquared and all they are trying to do and they have my FULL support. We in rural areas are tired of living in the dark age.....LIGHTSQUARED!!! YES!!
