

My cellphone number 240-643-1582 is on the do-not-call list.

I have received many calls on my cell phone from telephone number 1-360-322-6053. And each time I called the number back, I selected the first option to remove my cellphone number from their list but I continued to receive marketing calls from the same number! I am fed up with having to call them back because the option they left on their answering service does not work. The marketer is invading my privacy and much needed personal time. Please help me bring this illegal marketing technique to a stop.

Thank you.
