

I am a very Fortunate Post 1st Persian Gulf USNR Vet and I am speaking out about the needless deaths of our Vets due to HOMELESSNESS!

Homeless Vets are dieing at a higher rate then any other group of Americans and with more disabled Vets returning from Iraq and Afghanistan the #s are increasing!

One solution is to extend Project Lifeline Americas plan of giving cell phones and Broadband access to needy Americans is to include the MOST NEEDY: Homeless Vets(mVET)!!!

mVET would have an accountability and data driven component to verify efficacy and achieved LIVES SAVED!!
