Deputy Bureau Chief  
Public Safety & Homeland Security Bureau  
Federal Communications Commission  
445 12 Street, SW  
Washington D.C., 20554

Dear Ms. Manner,

The purpose of this letter is to clarify language from our request to withdrawal our Interoperability Showing filed on April 3, 2012. We did not intend to imply the Federal Communications Commission (FCC) was requiring us to withdrawal the Interoperability Showing, rather that the Interoperability Showing was required under the current waiver provisions. The Adams County Communication Center voluntarily requests the withdrawal of the previously submitted Interoperability Showings.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brian Shepherd', written over a horizontal line.
