Re: Comment for the Sixteenth Report on Mobile Wireless Competition.
WT Docket No. 11-186

To whom it may concern,

I am submitting to your attention on a report entitled "Beyond data caps", and two follow-up article on the same topic (i.e., data caps in the mobile industry), entitled "Where will an increase in cellular capacity come from?" (published in FierceWireless) and "Data caps may make data congestion worse" (published in RCR Wireless) that were written in 2011.

Feel free to contact me if you require any clarification or have any question.

Sincerely,

A handwritten signature in black ink, appearing to be "MPaolini", written over a light blue horizontal line.
