

Your crappy agency is responsible for suppressing misuse of the aether by frauds/scammers/phishing firms or other DO NOT CALL evaders. What a crappy, stupid, excessive, discouraging, hassling online Form you oblige a complainer to go through. The FCC commisioners are in cahoots with the congress and lobbyionsts and fellow fraudsters of the fraudsters that misuse the cell network. You should be taken out and tarred and feathered. I hope you get millions of fraud calls and especially on your home phones and cell phone in the middle of the night.
