

When will Odessa and Midland, Texas television stations be forced to comply with the CALM act?? The car dealership and local news commercials are HORRIBLY LOUD! Ridiculously LOUD! This part of the country seems to think they can drag their feet on everything..they didn't desegregate the schools until 1985. Now this. Do they really have until December of 2012? or can they manage to keep doing this even longer with some legal wrangling? This is really unpleasant, it's so loud it makes the dogs jump. Kelly Grimsley car dealerships are THE WORST at it by far but all are bad. I've lived all over America and never seen the like of this.
