<http://www.ucop.edu>

Statewide Coordination

For this reporting period, the California Telehealth Network (CTN) project is being managed at the highest level, through the Office of the President of the University of California (UC). Operational responsibility has been delegated to the following entity within the University:

Center for Health and Technology
University of California Davis Health System
2300 Stockton Blvd, Suite 3900
Sacramento, CA 95817

Full responsibility is anticipated to transition out of the University of California to the CTN 501(c)(3) organization effective April 1, 2012.

CTN operational management also receives guidance and operational support from the large group of CTN Consortium Member organizations. The CTN Consortium was originally formed in order to coordinate and consolidate multiple independent Rural Health Care Pilot Program (RHCPP) proposal initiatives, with the aim of submitting a single proposal that represented the interests of the State of California. The Consortium was formed specifically at the direction of the Governor's Office. Please see the list of CTN Consortium Member organizations provided in previous quarterly reports. The CTN Consortium advises and informs CTN project management through the CTN Board and CTN Executive Committee, whose members represent rural health care providers, state government organizations, as well as non-profit health care funding organizations. Statewide coordination of the CTN project is greatly facilitated by the willing investment of time, resources and expertise provided by the CTN Consortium members.

As mentioned previously, operational coordination of the statewide project during this reporting period was currently the joint responsibility of the California Telehealth Network 501 (c)(3) Corporation, Center for Health and Technology (CHT) at UC Davis, and AT&T who serves as the Prime Contractor for technical implementation and maintenance of the project. The CTN 501(c)(3) transition to a fully independent organization is imminent. Once all approvals are complete and the transition agreement between the University of California and the CTN 501(c)(3) is executed, the CTN will provide all coordination, communications, and financial support required to recruit and enroll new participant sites and support existing CTN member sites independently.

2. Identify All Health Care Facilities Included in the Network

From the outset, the CTN initiated numerous statewide communications activities aimed at enrolling prospective CTN participants. Close to 1000 health care facilities signified their intention to participate by submitting a Letter of Agency with 863 of those sites confirmed eligible through the CTN Form 465 filing, dated July 3, 2009. Since that time CTN has added previously unidentified sites in supplemental 465 filings and now has a total of 938 approved participant sites. A complete listing of eligible Participant Sites is available at the USAC RHCPP Web Site, under the California Telehealth Network entry. The CTN received Letters of Agency from numerous organizations who are interested in participating in the CTN. These organizations

continue to be put forth for eligibility determination. Additional 465A filings are anticipated throughout the year as new sites discover the CTN and want to participate in this exciting project. In addition to the data on the posting shown below, CTN is including in this report, additional approved participant sites, the Census Tract, RUCA codes, public vs. non-public status, and non-profit vs. profit status associated to the filing. Please see attachment 1 of this report.

<http://www.usac.org/rhc-pilot-program/tools/search-postings-2009.aspx#CA>.

3. Network Narrative

The request for proposals (RFP) for CTN network services (CTN RFP #2009-02) provided detailed specifications and requirements for performance, reliability, security and quality of services, as well as detailed requirements for managed services to be provided by the Contractor(s).

Form 466A Filing Status

CTN has completed its investigation of an alternative network option that promises to provide better performance, as well as a greater degree of reliability and redundancy. The alternative option is termed: “Network-Based Firewall” (NBFW) infrastructure. CTN has consulted with USAC regarding substitution and augmentation of the original security infrastructure with the proposed NBFW architecture. It should be noted that all services and products required to implement the alternative security system were included in the initial CTN Master RFP. Consequently, although final approval is subject to detailed review of CTN’s 466a filing, which is currently underway, USAC has agreed that the upgraded infrastructure should be eligible for subsidy under the RHCPP. CTN is currently working with AT&T (vendor) to develop modified contract language that accommodates the proposed substitution and augmentation of security services.

CTN appreciates USAC’s continued assistance and time with these filings and program guidance. CTN and AT&T are in the final stages of developing a detailed technical Proforma that will encompass implementation of the new, expanded NBFW, as well as account for incremental removal from service of the current infrastructure, done in such a fashion as to minimize customer disruptions. Subject to completion of the modified CTN-AT&T Contract, as well as final approval by USAC, we anticipate initiating NBFW implementation within Q2, 2012, with completion by early Q3, 2012.

4. List of Connected Health Care Providers

As of March 31, 2012 a total of 107 sites are connected to the CTN backbone, and as a result of the CENIC connection, all University of California sites are also connected to the CTN. Additionally, many member sites have opted to provide Wide Area Network (WAN) connections to multiple sites within their organizations. Taking these sites into account, instead of counting only router installs, the total number of sites with access to the CTN is 189. Please see

Attachment 2 for a list of the physically connected sites plus the University of California sites that originally signed LOAs.

Last quarter CTN held webinars for CTN connected and potential sites. Webinar topics covered:

January 26, 2012

Using Store and Forward Tele dermatology

David J. Wong, MD, PhD, Co-Founder and CEO of Direct Dermatology discussed the benefits and operational considerations of store and forward dermatology services including:

- How store-and-forward tele dermatology works and the value it can provide to various care settings
- Discussion of best practices for implementing store and forward
- What to look for when considering a store and forward dermatology provider
- Patient examples of telemedicine dermatology uses and results

February 15, 2012

Health Care Cyber Threats in Today's World

Brian Contos, CISSP, Director of Global Security Strategy & Risk Management at McAfee, will discuss how serious and prevalent health care cyber threats are today and the risks associated with utilizing new technologies.

March 22, 2012

Discussion on AB 415

Discussion on the provisions of California's new telehealth legislation, AB 415 led by Christine Martin, Executive Director of the California Telemedicine & eHealth Center and Mei Wa Kwong, Policy Associate for the Center for Connected Health Policy.

Attachment 3 and 4 depict the CTN network diagrams. These diagrams illustrate respectively: 1) the overall network architecture of the CTN backbone network, showing how individual sites are connected into the CTN "Cloud", which provides HIPAA-compliant secure interconnection among all participating sites; 2) detailed illustration of the CTN-CENIC peering point in Los Angeles, that incorporates a sophisticated phalanx of network security equipment and software, termed a "DMZ (demilitarized zone), that monitors all traffic to/from the CTN and filters out malicious traffic. As mentioned in Section 3 above, CTN has settled on an alternative security infrastructure that will replace and augment the existing security system and greatly improve the network performance, reliability and redundancy. CTN is endeavoring to complete final technical and administrative/contract negotiations with AT&T before the end of Q1, 2012 with the expectation that actual implementation would be initiated within Q2, 2012. USAC filings will be submitted within the next 30 days. Once the new network configuration is approved, CTN will provide new network diagrams to reflect the change.

5. Identify the Following Non-recurring and Recurring Costs

AT&T representatives continue to work closely with CTN and USAC developing a comprehensible yet searchable bill which will specifically break out itemized costs as well as

ineligible costs. This bill will help substantially in the USAC invoicing process. AT&T continues to work through the completion of its invoice and hopes to have a complete and comprehensive invoice to CTN for the April 2012 billing cycle. This timing will align nicely with the CTN transition so that the first AT&T invoice and subsequent invoices will be processed through the CTN directly.

CTN hired Geordi Royston as a Billing Analyst. Mr. Royston will be responsible for helping to validate AT&T bills and developing the associated USAC invoices via the USAC SharePoint site.

AT&T and CTN completed contract negotiations which would allow for the 300 router deployment requirement to be extended an additional 18 months. This contract amendment, along with amendments for the transfer of control to the CTN 501 (c)(3), as well as site additions are almost complete.

CTN has received a complete invoice for the BT Conferencing Firewall Traversal System and has completed and submitted the appropriate invoicing for The California Emerging Technologies Fund (CETF) 15% matching funds. Documentation was sent to BT conferencing to submit reimbursement for the outstanding balance. CTN still has not had contact from BT Conferencing regarding this reimbursement.

6. Describe how Costs have been Apportioned and the Sources of the Funds to Pay Them

Thus far, CTN has invoiced against the Internet2 funding request number (FRN) # 50254. Eighty-five percent (85%) of this subscription fee is reimbursable; the remaining 15% was reimbursed using matching funds from the California Emerging Technologies Fund (CETF). As noted above, CTN has also invoiced for the Firewall Traversal System which was approved under FRN # 52391. CTN requested a year 2 invoice from Internet 2 but has not received that invoice as of March 31, 2012.

Sources of Funding in Addition to RHCPP Award

CTN continues to recruit fair share sites for participation in the network. Several negotiations are currently taking place with multi-site organizations such as Kaiser Permanente (30 sites) and Catholic Healthcare West (30 sites). CTN began discussion with the California Teleconnect Fund (CTF) to determine the amount of discount CTF will offer for fair share sites. CTN is also offering different levels of Managed Router Service. This will allow CTN fair share pricing to be more flexible and competitive.

In December 2011, California Emerging Technologies Fund (CETF) committed another \$1 million to fund operational and administrative expenses of CTN and challenged other CTN 501(c)(3) Board stakeholders to match this commitment. United Healthcare provided an additional \$700,000 in core CTN operating funds in March 2012. This funding will help cover technical expertise to facilitate site installations and implementations, as well as programmatic

expertise and training for the development of telemedicine programs. Discussions with other agencies for additional funds continue.

CTN began member billing in July, 2011 for sites connected as of July 1, 2011. As of March 2012 the CTN is billing 110 members.

7. Identify any Technical or Non-technical Requirements or Procedures Necessary for Ineligible Entities to Connect to the Participant's Network

CTN continues to receive interest from various for-profit and other RHCPP ineligible health care facilities. Interested parties receive the Share-of-Cost Membership Agreement for review. Several parties have expressed interest, however, at this time executed agreements remain pending. Through discussions with California Teleconnect Fund (CTF), CTN decided to reflect on the fair share pricing schedule the discount provided by CTF. This will illustrate to CTN fair-share members that CTN pricing is competitive to other telecommunication providers and will clearly delineate the rates and discounts for financial management purposes.

CTN Fair Share agreements are currently developed and under review by CTN legal counsel. These agreements will be available after the transition from the University of California is complete. .

8. Provide an update on the project leadership, management structure and plan

a. Current Leadership and Management Structure

CTN worked with its existing members to obtain a transfer of agency letter from UC Davis to the CTN 501(c)(3) entity. All transfer of agency letters have been received, and are on file and have been uploaded to the USAC SharePoint site.

The CTN 501(c)(3) continues to move forward in becoming an independent entity able to support all functions of the RHCPP program. Final approvals are complete and the transition agreement is expected to be signed with an effective date of April 1, 2012. Once this agreement is executed, CTN staff will accept full responsibility for both RHCPP Project Leadership positions. UCDHS employee, Dr. David Harry will step down from his role as a Project Lead and Associate Program Coordinator, but will continue to provide the CTN with guidance on technical architecture and AT&T contract management support.

As of December 1, 2011, CTN hired a Communications Coordinator who has been instrumental in getting email communications and social media content operational and up to date. The Communications Coordinator has also arranged for CTN display booths at several healthcare conferences. The coordinator developed an external communications plan and has developed mailings for new members which include marketing collateral such as pens, pads, and a specific "Proud Member of CTN" window decals. These efforts are designed to increase CTN visibility and participation.

Additionally, during the past quarter CTN staff participated in the TedMed conference via webcast from the Kennedy Center for the Performing Arts April 11 – 13th. For more information visit: <http://www.tedmed.com/home>.

CTN continues to participate in the UC Davis Health System eHealth Broadband Adoption grant. This grant not only provides CTN operational funding, but has established eHealth educational curriculum and 15 model communities throughout the state to serve as community-based transition models for technology-enabled health delivery. In the upcoming months (May-July, 2012), CTN will join UCDHS on site visits to the model communities selected as part of this grant. The purpose of these visits is to gather specific information with regard to installation and use of CTN.

To further visibility and interest in the program, CTN and CTEC will host exhibit booths and the CTN will host an evening hospitality reception at the American Telemedicine Association (ATA) conference in San Jose, April 30, and May 1.

President and CEO of the CTN, Eric Brown, continues to reach out to various organizations and groups to promote connectivity and use of the CTN. Some of his activities during this quarter are listed below.

Name of SBA Activity	Location of SBA Activity	Description of Activity (600 words or less per activity)	Size of Target Audience	Actual Number of Participants
Kaiser Permanente	Sacramento, CA	01/06/2012 – CTN update with executives to see how CTN and Kaiser can collaborate	6	6
Adventist Health	Roseville, CA	01/10/2012 – CTN update with executives and discussion regarding Adventist Health participation as a CTN member	2	2
California State Rural Health Association	Sacramento, CA	01/10/2012 – Meeting with CSRHA and the PA association to increase their involvement in telehealth and other rural health issues	4	4
Civil Leadership Awards and Breakfast Celebration	Sacramento, CA	01/11/2012 – CTN update with executives, legislative staff and California Senate/Assembly members	300	200
Community Clinic Association of Los Angeles	Sacramento, CA	01/11/2012 – CTN presentation to enlist CTN participation	30	30
Palo Alto Medical Foundation	Sacramento, CA	01/12/2012 – CTN presentation to get CTN participation	6	6
CENIC	Sacramento, CA	01/12/2012 – CTN update and CENIC application for CTN sites	3	3
Broadband Council Roundtable	Sacramento, CA	01/12/2012 – Discussion on the impact of Federal Universal Service Reform On Broadband Deployment and Affordability in California with the California Broadband Council and Zachary Katz, Chief Counsel to Chairman Julius Genachowski of the Federal Communications Commission	50	50
Camino Fiber Network Cooperative	Placerville, CA	01/21/2012 – CTN update and discussion to explore possible synergies and areas of collaboration. Consortium is comprised of the Camino Fiber Network Cooperative (CFNC), the El Dorado County Office of Education and the El Dorado County Chamber of Commerce	12	12
LA Care	Los Angeles, CA	01/23/2012 – Exploring CTN site outreach agreement	6	6
Charles Drew University	Los Angeles, CA	01/24/2012 – CTN presentation and discussion of CDU providing educational services to CTN sites	3	3

Healthcare Communications SIG	San Diego, CA	01/24/2012 – Discussion on How Genomics and Wireless Technologies are Making Healthcare More Predictive, Preventive, Personalized and Participatory	100	100
MODOC & Alturas County Site Visits	Modoc, CA	01/25 - 27/2012 – CTN presentations and site visits with Canby Family Practice Clinic, Surprise Valley Hospital, Modoc Mental Health, Modoc City Hospital, and Eastern Plumas Hospital. Discussions regarding CTN connections and rural to rural collaborations.	50	50
iCALIFORNIA Digital Literacy Campaign	Sacramento, CA	02/01/2012 – Collaborating with CTN to use their digital literacy materials. A joint effort to raise public awareness of the importance of digital literacy skills for all citizens.	50	50
Adventist Health	Roseville, CA	02/02/2012 – CTN update with executives and discussion regarding Adventist Health participation as a CTN member	4	4
Alameda Health Consortium	Sacramento, CA	02/07/2012 – CTN update with executives	6	6
Department of Mental Health	Sacramento, CA	02/10/2012 – CTN update and discussion to provide a scale of mental health services that are reliable and meet community needs	3	3
California Public Utilities Commission	San Francisco, CA	02/14/2012 – CTN update	3	3
Office of Senator Ed Hernandez	Sacramento, CA	02/15/2012 – CTN update	4	4
Community Clinic Association of Los Angeles County	Huntington Beach, CA	02/17/2012 – Annual Health care Symposium. CTN presentation	300	150
California Channel	Sacramento, CA	02/22/2012 – Comcast "Newsmakers" interview discussing CTN mission and benefits	5500000	5500000
CFEE Roundtable Conference	Napa, CA	02/23-24/2012 – CTN presentation and roundtable discussion.	60	60
Rural Health Care Symposium	Sacramento, CA	03/01/2012 – CTN presentation on how telehealth services provide better access to care, improve outcomes and help hospitals treat patients that might otherwise be forced to seek specialty care at distant hospitals. The session provided information on the benefits of connectivity and offered resources to help launch or improve programs	120	120
USAC	Washington, DC	03/07/2012 – CTN briefing and discussion CTN metrics to measure impact on health care in California, and CTN transition from the University of California to a 501c3	3	3
NTIA	Washington, DC	03/07/2012 – CTN briefing and discussion on CTN progress	2	2
CENIC 2012 Beyond the Network	Palo Alto, CA	03/13/2012 – CTN briefing	40	40
Registry of Physician Specialists (RPS)	Palo Alto, CA	03/13/2012 – CTN briefing	3	3
CHHS eHealth	Sacramento, CA	03/14/2012 – CTN briefing at Coordinating Committee Quarterly Meeting	40	40
AARP	Sacramento, CA	03/14/2012 – CTN briefing with AARP Care Innovations	12	12
California Emerging Technology Fund	Los Angeles, CA	03/15/2012 – CTN presentation at CETF workshop for broadband	100	100

Center for Connected Medicine	Pittsburg, PA	03/19/2012 – CTN briefing to compare best practices with counterpart organizations in Pennsylvania	6	6
Rural Utilities Service, U.S. Dept. of Agriculture	Washington, DC	03/20/2012 – CTN briefing and discussion to explore USDA funding for CTN sites	5	5
Technet Meeting	Sacramento, CA	03/23/2012 – CTN briefing to get California based tech companies involved in telehealth	12	12
Dr. Lou Vismara	Sacramento, CA	03/26/2012 – CTN briefing with Medical Chief of Staff with State Senator Steinberg's office	4	4
Governor Council Room	Sacramento, CA	03/26/2012 – CTN briefing – Horseshoe meeting with the Governor's office	4	4
California Health and Human Services Agency	Sacramento, CA	03/27/2012 – CTN briefing	3	3
U.S. Department of Agriculture	Sacramento, CA	03/27/2012 – CTN briefing to explore USDA funding for CTN sites	6	6
Office of Senator Steinberg	Sacramento, CA	03/27/2012 – CTN briefing	4	4
CA Legislative Black Caucus	Sacramento, CA	03/27/2012 – Informational Briefing - Emerging Health Care Disparities. CTN briefing	40	40
SJV Regional Economic Summit	Fresno, CA	03/28/2012 – CTN briefing	200	200
Total:			5,501,606	5,501,356

b. Project Plan and Schedule

Through establishment of a physical connection point (peering point) between the CTN backbone and the statewide CENIC network, CTN participants will be afforded direct access to all educational and research institutions comprising CENIC, access to national research and educational networks (i.e., Internet 2 and National LambdaRail), as well as access to the Public Internet.

The following is an updated approximate schedule of events. Please note that all dates listed are estimates and are subject to change.

Schedule of Events

Event	Date
Review and Score CTN Business Plan Consultant Proposals	Complete
Completion of Proposal CTN Business Plan Evaluation Process	Complete
CTN Business Plan Award Announcement	Complete
Initiation of CTN Business Plan Vendor Contract Negotiations	Complete
CTN Business Plan Vendor Contract Signing	Complete
Initial Form 466A Submission	Complete
Completion of Second and Third 466A Submission	Complete
Collect signed Membership Agreements from CTN Participants	Ongoing
Technical Site Readiness Calls for First 50 Sites	Complete
Distribution of Site Readiness Questionnaires to Additional Sites	Ongoing
Legal Review of Share-of-Cost Membership Agreement	Complete

Begin Construction of CTN-CENIC Peering Infrastructure	Complete
Implementation of Internet Connectivity	Complete
Rescind three original 466A Site Filings	Complete
Submission of Revised 466A Filing	Complete
Submission of 465 Filing for additional sites	Ongoing
Submission of 466A Filings for additional or previously approved sites	Ongoing
Submission of site substitution request for NWBF vs. CENIC connection	March 2012
Orders placed with AT&T	Ongoing - 191
Consolidated bill received from AT&T (anticipated)	April 2012
USAC AT&T invoicing to begin	May 2012

9. Provide Detail on Whether Network is or Will Become Self-Sustaining

The California Health Care Foundation provided funds to the CTN to hire a business plan consultant to advise CTN on various network offerings that will enhance the sustainability of CTN. CTN issued an RFP for a business plan consultant and awarded a contract to Booz Allen Hamilton (BAH) based out of San Francisco.

Recommendations from the BAH business plan were presented and approved by the CTN board and continue to be implemented by CTN staff and associated consultants.. CTN has enlisted the expertise of Richard Swafford, Ph.D. to assist with identifying alternate sources of broadband and broadband funding for sites not eligible to participate in the RHCPP, and Strategic Medical Properties to assist with financial modeling of new value added services including the aggregation of clinical specialty care services for CTN sites.

10. Provide Detail on How the Supported Network has Advanced Telemedicine Benefits

Many of the CTN connected sites are now conducting telemedicine consultations over the network. The sites continue to express great satisfaction with the quality of the video and dependability of the network. Additionally, CTN's work with the UC Davis Health System on the eHealth Broadband Adoption grant, funded by the Department of Commerce's Broadband Technology Opportunities Program, has created several online learning opportunities. The grant's established 15 Model Communities throughout the state will exemplify a collaborative model of telemedicine and telehealth services running over the CTN.

The eHealth Broadband Adoption Online Training Program provides numerous lessons on the topics of telemedicine, telehealth, and other important broadband adoption topics. This training, available to all CTN RHCPP sites provides learners with information on how to start and operate a telemedicine program, in addition to learning more about the CTN and other telehealth services. A link to the training site and a list of the selected Model Communities can be found at: <http://www.ucdmc.ucdavis.edu/cht/initiatives/BTOP/index.html>.

Through collaboration with California Telemedicine and eHealth Center (CTEC), CTN has been able to provide assistance to clinics wanting to develop sustainable telemedicine programs. It is

clear through this collaboration and the eHealth Broadband Adoption project that many sites need additional assistance with program development once their broadband network infrastructure is implemented. This type of support, along with the addition of a 24/7 technical call center for the connectivity are two service level offerings the CTN continues to assess how best to provide.

11. Provide Detail on How the Supported Network has Complied with HHS Health IT Initiatives

- a. Interoperability Standards: the network has been designed as an “open network”, complying with industry-standard protocols.
- b. The network has not deployed any applications to date. CTN intends to adhere to the Certification Commission for Healthcare Information Technology (CCHIT) standards in selecting and implementing applications.
- c. CTN completed construction of an interconnection (peering point) with the CENIC statewide educational and research network in Los Angeles California. Through the peering point, CTN participants are now able to directly connect to all sites available on the two national research and educational networks: 1) Internet2 and 2) National LambdaRail.
- d. To date, the network has not yet used resources from the Agency for Healthcare Research and Quality (AHRQ) National Resource Center for Health Information Technology.
- e. University of California Davis Health System (UCDHS), the operational lead organization for the CTN, is actively involved in bioterrorism and pandemic response activities. Several members of the UCDHS Center for Health and Technology (CHT) are actively involved in this work and will be advised to coordinate the CTN-related activities with Department of Health and Human Services (HHS) Secretary for Public Response.
- f. UCDHS CHT will participate with CTN management to facilitate interoperability with public health and emergency organizations. CHT completed work through a \$5 million grant from HHS to develop Emergency Department Surge Capacity coordination. Part of this work involved developing collaborative and cooperative agreements among local, county and regional emergency response agencies and public health organizations. Efforts were made to coordinate the integration of additional sites for the HHS project in such a fashion that there was maximal overlap between HHS and CTN sites. The long-term goal is to position the CTN to become a core component of region and statewide efforts to develop emergency response and disaster preparedness programs and infrastructure. CHT and CTN management will expand the coordination efforts to include HHS and CDC interoperability requirements, as the network is actively deployed.
- g. CTN is coordinating with the University of California Proposition 1D/PRIME rural outreach initiatives. This program is funded through a \$200 million bond initiative approved by the voters to enhance training of medical students who express interest in practicing in rural areas. A portion of the funds (\$10 million) will be used to provide telemedicine equipment to rural health care sites, in order to facilitate telemedicine use. The equipment distribution initiative was suspended for a period of time during late 2009 due to significant state budgetary challenges, but has since resumed. To date, 10 sites have received telemedicine equipment and training, while the others are in various stages

of the deployment process. More sites across California are participating in telehealth activities, including those with connectivity through the CTN.

- h. CTN is collaborating with the University of California, Davis Health System on an eHealth Broadband Adoption grant. This Department of Commerce, Broadband Technology Opportunities Program (BTOP) grant was developed to promote broadband adoption through technology enabled health care. Over \$14 million in federal and match funds combined will be used to support three important components:
 - 1) CTN operations;
 - 2) the development of robust eHealth training curriculum that will be accessible on-line to educate CTN members, health care providers and consumers on the use of broadband in various health care modalities and;
 - 3) establish Model eHealth Communities that will receive strategically placed eHealth equipment in a number of rural and other medically underserved California communities. Model Communities will demonstrate a community-based transition model to technology-enabled health delivery.

A formal RFP process was established for Model Community selection. To qualify for consideration communities had to have the participation of three CTN sites, as well as meet several other criteria. Finalists were selected and announced. Please see the following website for a list of these communities.

<http://www.ucdmc.ucdavis.edu/cht/initiatives/BTOP/index.html>

12. Explain How the Selected Participants Coordinated in the Use of Their Health Care Networks

CTN will implement ongoing efforts to comply with HHS programs to provide access to network services during national, regional or local public health emergencies. CTN has initial plans to facilitate access through three means:

1. UCDHS received a \$5 million grant from HHS as part of their Emergency Department Surge program to develop effective health care coordination capabilities in the event of public health emergencies. UCDHS selected rural health care facilities that would co-participate in both programs. CTN will develop and support coordination of geographically distributed health care resources on a regional basis based on the findings of the UCDHS Surge Capacity grant, as well as any current efforts in the area of disaster preparedness.
2. CTN is connected to both National Lambda Rail and to Internet 2 national networks. Through these connections, HHS will have unrestricted access to the CTN network, thereby providing integration at a national level.
3. CTN is connected to the National Lambda Rail Regional Optical Network (RON) provider for California, the Corporation for Education Network Initiatives in California (CENIC). CENIC provides direct connectivity to every University of California campus and medical center, as well as most major academic medical centers within the state (e.g., Stanford Medical Center and University of Southern California Medical Center). This

connectivity will provide a means of broadly coordinating access to every major academic medical network within the state.

The CTN Leadership Team communicates regularly with the Oregon Health Network, the Colorado Telehealth Network and the Southwest Telehealth Access Grid (TAG) in New Mexico to identify opportunities to partner. CTN will continue its discussions with other possible partners that may be interested in Internet2 and network to network connectivity.

Router	Feature Name
Cisco 1841	Managed Router (AT&T Owned) – Small
Cisco 2821 - X8 MLPPP	Managed Router (AT&T Owned) – Small
Cisco 2821 MLPPP	Managed Router (AT&T Owned) – Small
Cisco 2821-X6 MLPPP	Managed Router (AT&T Owned) – Small
Cisco 3845	Managed Router (AT&T Owned) – Medium
Cisco 7206	Managed Router (AT&T Owned) – Large

* 30 University of California sites are using existing equipment

CENIC / Internet 2 / NLR Peering Point(s)

Managed Firewall and Managed Intrusion Prevention Services -IPS

Installed, managed and maintained Cisco ASA 5540/ SSM 40 F/W and IPS/ IDS Monitors/protects networking infrastructure from internal and external sources. When pattern of misuse detected, the system automatically responds according to the client's predefined policies. Includes level 3 service with live analyst to interpret data

Managed AV Scanner

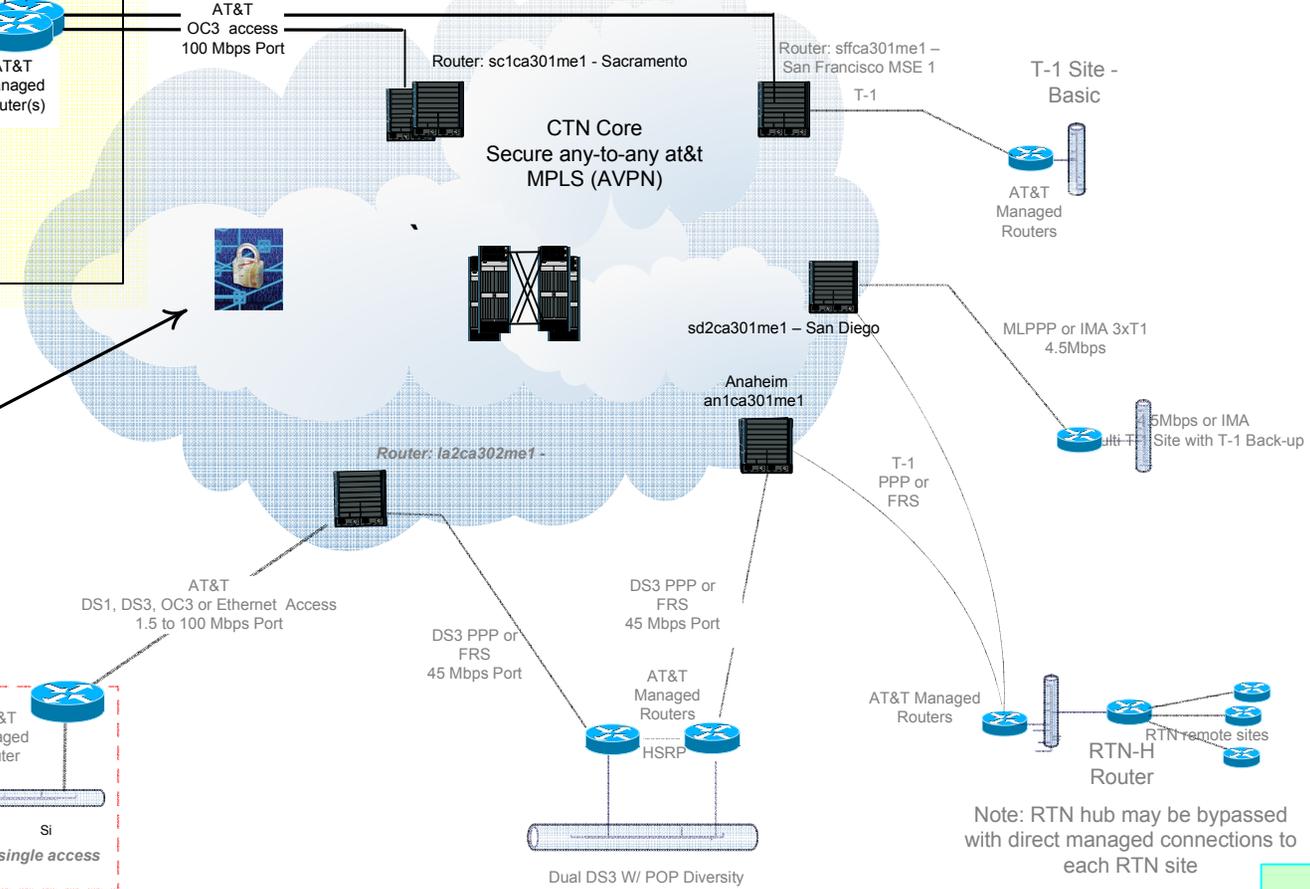

Tied to BC for AV

Managed Web Security Appliance

BlueCoat Internet Content Filtering Malware and virus blocking ATT Managed router runs WCCP to BC for http traffic, passes other traffic

Private Internet Protect (Optional)

Network Based IDS advanced information regarding potential real-time attacks (viruses, worms, & DDoS) .

Note: RTN hub may be bypassed with direct managed connections to each RTN site

CNT-C Applications: Telemedicine consultation, distance education, patient monitoring

Legend

Option 2: Parallel Proxy
