The cost of the long distance (toll) call

When dealing with Federal, state, county, or local jails and prisons it just isn't fair that you have to pay high connection and per-minute charges for calls home. All facilities, either directly or along with "mandated" phone companies, charge sky high fees for long-distance calls for their inmates. These places apparently don't care how much they charge for inmates to call home. They seem to be out to make the most money possible from people talking to their loved ones.

The power of the local call

Here at ConsCallHome.com, we provide you with a local phone number to the prison or jail where your loved one is incarcerated. This means that the cost you or your inmate must pay for a call home is the lowest possible

amount. For Federal inmates, it's a direct cut of 74%. Long distance at the BOP is 23¢ per minute; with our Direct Lines™, your inmate will only pay the BOP 6¢ per minute.

If you have to deal with a state or local facility and use one of the pre-paid services (Global Tel, CBS, etc.) you probably will still use them. BUT, you will find that your costs will also drop drastically, since those calls will become only a local call for that inmate. No longer do you have to pay the long-distance robbery rates these companies charge.
