

37. In accordance with Section 54.313(a)(6) of the Commission's Rules,⁷⁰ Carolina West will annually certify that it is able to function in emergency situations. The Company will also fulfill the annual outage reporting requirement described in Section 54.313(a)(2), which requires an ETC applicant to submit detailed information on any outage of at least thirty (30) minutes in duration that potentially affects (1) at least 10 percent of the end users served in a designated area; or (2) a 911 special facility, as defined in Section 4.5(e) of the Commission's Rules.⁷¹

38. As required by the Commission's Rules, the outage report will include information detailing: (1) the date and time of onset of the outage; (2) a brief description of the outage and its resolution; (3) the particular services affected; (4) the geographic areas affected by the outage; (5) steps taken by Carolina West to prevent a similar situation in the future; and (6) the number of customers affected.⁷² Therefore, Carolina West meets the requirement that its facilities and equipment will remain functional in emergency situations.

3. Consumer Protection.

39. Section 54.202(a)(3) of the Commission's Rules states that an ETC applicant must "demonstrate that it will satisfy applicable consumer protection and service quality standards."⁷³ A commitment by wireless applicants to comply with the Consumer Code for Wireless Service adopted by CTIA–The Wireless Association[®] ("CTIA Code")

⁷⁰ 47 C.F.R. § 54.313(a)(6).

⁷¹ *Id.*; 47 C.F.R. § 4.5(e).

⁷² 47 C.F.R. § 54.313(a)(6).

⁷³ 47 C.F.R. § 54.202(a)(3). *See February 24 Public Notice* at para. 6.

satisfies this requirement.⁷⁴ Carolina West is committed to abide by the CTIA Code, as it may be amended from time to time, throughout its service area.⁷⁵

40. Moreover, if designated as an ETC for the purpose of receiving Mobility Fund Phase I support, Carolina West will abide by the requirements of Sections 54.313(a)(4) and 54.313(a)(5) of the Commission's Rules.⁷⁶ Specifically, the Company will, on an annual basis, certify its compliance with the CTIA Code and report the number of customer complaints per thousand handsets. Accordingly, Carolina West meets the consumer protection requirements.

⁷⁴ *Id.* The CTIA Code can be viewed on the Web at <http://files.ctia.org/pdf/Consumer Code.pdf>.

⁷⁵ CTIA amended the CTIA Code in October 2011 to provide that wireless carriers agree to provide consumers with free notifications for voice, data and messaging usage, and international roaming. In explaining this "bill shock" provision, CTIA has indicated the following:

Each wireless provider will provide, at no charge: (a) a notification to consumers of currently-offered and future domestic wireless plans that include limited data allowances when consumers approach and exceed their allowance for data usage and will incur overage charges; (b) a notification to consumers of currently-offered and future domestic voice and messaging plans that include limited voice and messaging allowances when consumers approach and exceed their allowance for those services and will incur overage charges; and (c) a notification to consumers without an international roaming plan/package whose devices have registered abroad and who may incur charges for international usage. Wireless providers will generate the notifications described above to postpaid consumers based on information available at the time the notification is sent. Wireless consumers will not have to affirmatively sign up in order for these notifications to be sent. Each wireless provider shall provide its customers at least two of these alerts by October 17, 2012 and all of these alerts by April 17, 2013. Wireless providers will clearly and conspicuously disclose tools or services that enable consumers to track, monitor and/or set limits on voice, messaging and data usage.

CTIA Code, http://www.ctia.org/consumer_info/service/index.cfm/AID/10352. Carolina West certifies that it intends to comply with the provisions of the eleventh point of the CTIA Code pursuant to the implementation schedule established in the Code.

⁷⁶ 47 C.F.R. §§ 54.313(a)(4), 54.313(a)(5) (as modified by the *CAF Order*).

4. Financial and Technical Qualifications.

41. Carolina West certifies that it is financially and technically qualified to provide, and intends to provide, broadband services meeting the Commission's requirements, *i.e.*, either 3G service in the supported areas within two years after the date Carolina West is authorized to receive Mobility Fund Phase I support, or 4G service within three years after such date.⁷⁷

5. Protections Against Fraud, Waste, and Abuse.

42. Carolina West will take all steps necessary to prevent fraud, waste, and abuse in connection with its use of Mobility Fund Phase I support, and will comply with all applicable Lifeline requirements adopted by the Commission for purposes of preventing fraud, waste, and abuse.⁷⁸

IV. DESIGNATING CAROLINA WEST AS AN ETC WILL SERVE THE PUBLIC INTEREST.

43. For Carolina West to be designated as an ETC in a rural service area, the Commission must find that the grant of ETC status to Carolina West in the rural service area would serve the public interest.⁷⁹ In cases decided by the Commission, the question of whether it is in the public interest to designate a wireless carrier in areas served by rural incumbent LECs has been decided in the affirmative.⁸⁰

⁷⁷ See *CAF Order*, 26 FCC Rcd at 17801 (paras. 400-403); 47 C.F.R. §§ 54.1003(c), 54.1006.

⁷⁸ See *Lifeline Reform Order*.

⁷⁹ See 47 U.S.C. § 214(e)(2). No public interest finding is required where a carrier is seeking ETC designation in a non-rural service area. *Id.*

⁸⁰ See, e.g., *Carolina West Order*; *Corr Wireless Communications, LLC*, CC Docket No. 96-45, Order, 21 FCC Rcd 1217 (Wireline Comp. Bur. 2006); *RCC Minnesota, Inc. and RCC Atlantic, Inc.*, CC Docket No. 96-45, Order, 20 FCC Rcd 15833 (Wireline Comp. Bur. 2005); *Virginia Cellular LLC*, CC Docket No. 96-45, Memorandum Opinion and Order, 19 FCC Rcd 1563

44. The Telecommunications Act of 1996 (“1996 Act”), and the Commission in its enabling orders, provide guidance for determining the public interest.⁸¹ The overarching principles embodied in the 1996 Act are to “promote competition and reduce regulation[,] . . . secure lower prices and higher quality services[,] . . . and encourage the rapid deployment of new telecommunications technologies.”⁸²

45. In conformity with the Act and the Commission’s rules, the Commission has repeatedly found that wireless carriers satisfy the federal requirements for ETC designation, and has cautioned state commissions against imposing artificial barriers to competitive entry by wireless carriers, particularly in rural areas where wireless carriers are best positioned to compete with wireline carriers.⁸³

46. Although the Commission’s rules do not provide specific public interest criteria, the Commission has previously enunciated a framework of five factors for consideration in ETC designations. In determining the public interest, the Commission has indicated that the following should be considered:

- The benefits of increased competitive choice;
- The impact of designation on the federal USF;

(2004) (“*Virginia Cellular Order*”); *NPCR, Inc., d/b/a Nextel Partners*, 19 FCC Rcd 16530 (2004); *Highland Cellular, Inc.*, CC Docket No. 96-45, Memorandum Opinion and Order, 19 FCC Rcd 6422 (2004).

⁸¹ See, e.g., *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, 12 FCC Rcd 8776, 8801 (para. 47) (1997) (“*Universal Service First Report and Order*”) (subsequent history omitted); *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Ninth Report and Order and Eighteenth Order on Reconsideration, 14 FCC Rcd 20432, 20480 (para. 90) (1999) (“*Universal Service Ninth Report and Order*”).

⁸² 1996 Act (preamble).

⁸³ See *Federal-State Joint Board on Universal Service*, CC Docket Nos. 96-45, 96-262, Seventh Report and Order, 14 FCC Rcd 8078 (1999).

- The unique advantages and disadvantages of the competitor's service offering;
- Any commitments made regarding the quality of telephone service; and
- The likelihood that cream-skimming will result from the designation.⁸⁴

47. Carolina West sets forth below specific facts demonstrating how its designation will advance the public interest in the service areas requested in this Petition.

A. Carolina West's Designation Will Bring Improved Coverage and Service Quality.

48. Through participation in the Mobility Fund Phase I support mechanism, Carolina West will operate, maintain, and expand its communications infrastructure in North Carolina to provide advanced wireless services, improve signal coverage, enhance wireless call quality, and provide more advanced services to North Carolina consumers. These investments will be above and beyond other investments Carolina West undertakes with internally generated capital. If it is granted ETC status in the proposed ETC service areas, and is successful in securing funding in Auction 901, Carolina West intends to bring and expand 3G wireless services to the area, and eventually 4G services.

49. Carolina West states on information and belief that there are areas within its proposed ETC service areas in which 3G or better broadband service is unavailable.⁸⁵ As set forth above, Carolina West commits to provide service to consumers upon reasonable request, and to use Mobility Fund Phase I support to upgrade and expand its network

⁸⁴ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, 20 FCC Rcd 6371, 6390-96 (paras. 44-57) (2005) (“*ETC Designation Requirements Order*”).

⁸⁵ See *February 2 Public Notice* at para. 2 (indicating that “Auction 901 will award one-time support to carriers that commit to provide 3G or better mobile voice and broadband services in areas where such services are unavailable”).

to provide improved coverage and capacity. The mobility of the Company's wireless service will assist "consumers in rural areas who often must drive significant distances to places of employment, stores, schools, and other critical community locations."⁸⁶

50. Carolina West employs an experienced engineering and technical support team that will monitor service quality and service outages across the Company's planned network, providing on-call emergency support 24 hours a day, seven days a week. Carolina West's response time to an outage report will normally be less than 30 minutes.

51. In areas where signal strength is weak and where no business plan supports construction of new facilities, Carolina West will use Mobility Fund Phase I support to construct facilities capable of providing 3G service, which will improve signal strength and serve consumers with the same top quality mobile service that urban consumers enjoy today.

B. Carolina West's Investment of USF Support in Its Proposed ETC Service Area Will Lead to Significant Health and Safety Benefits.

52. People in rural areas depend on mobile phones more and more to provide critical communications needs. Designating Carolina West as an ETC in the areas requested in this Petition will provide additional consumer choice and a potential solution to health and safety risks associated with the rural nature of these areas.⁸⁷ If Carolina West is successful in obtaining Mobility Fund Phase I support, then its deployment of 3G

⁸⁶ *Virginia Cellular Order*, 19 FCC Rcd at 1576 (para. 29).

⁸⁷ See, e.g., *Corr Wireless Communications, LLC, Petition for Designation as an Eligible Telecommunications Carrier in the State of Alabama*, CC Docket No. 96-45, Order, 21 FCC Rcd 1217, 1226 (2006) (stating that "[t]he mobility of telecommunications assists consumers in rural areas who often must drive significant distances to places of employment, stores, schools, and other locations").

mobile service will increase channel capacity and increase the number of completed calls, including important health and safety calls. Thus, for every cellular site that Carolina West constructs for the deployment of 3G service, the reliability and performance of Carolina West's E911 service will improve.

53. Important public safety benefits will be realized if the Commission designates Carolina West as an ETC in its proposed service area and the Company is successful in obtaining Mobility Fund Phase I support in Auction 901. Federal high-cost support would significantly bolster Carolina West's ability to expand its coverage more quickly throughout portions of North Carolina and build a 3G network that can offer state-of-the-art services.

54. Carolina West's network will be reinforced by the presence of battery and generator backups, capable of running for significant periods in the event of a major electrical outage. Portable generators can be moved to individual cellular sites in the event of a catastrophic electrical failure. Each cellular site on the network is protected by the availability of 24 hour a day, seven days a week emergency support.

C. Carolina West's Designation Will Enhance Service Availability for Low-Income Consumers.

55. Designation of Carolina West as an ETC in the areas of North Carolina requested, combined with Carolina West's receipt of Mobility Fund Phase I support in Auction 901, would enable the Company to offer more appealing and affordable service offerings to low-income customers to ensure that they are able to afford wireless services on a consistent and uninterrupted basis. Without question, wireless services have become essential for lower-income citizens, providing them with value for their money, access to

emergency services on wireless devices, and a reliable means of contact for prospective employers, social service agencies, and dependents.

56. A commitment to reach out to the low income community through active participation in the Lifeline program is an essential element in demonstrating that the public interest will be served by a grant of this Petition. Many low income persons need a mobile phone and Carolina West will offer them the opportunity to choose a mobile service plan for the first time. Carolina West makes this commitment to serve low income communities, and also points out that providing the Company with the authority necessary to offer discounted Lifeline services to those most in danger of losing wireless service altogether undoubtedly promotes the public interest.

D. Benefits of Competition.

57. One of the principal goals of the 1996 Act is, again, to “promote competition and reduce regulation in order to secure lower prices and high-quality services for American telecommunications consumers and encourage the rapid deployment of new telecommunications technologies.”⁸⁸ Designation of a competitive ETC in rural areas increases facilities and spurs development of advanced communications as carriers vie for a consumer’s business.⁸⁹ Further, as the Commission has stated, the “goal of the Mobility Fund Phase I is to extend the availability of mobile voice service on networks that provide 3G or better performance and to accelerate the deployment of 4G wireless networks

⁸⁸ See 1996 Act (preamble).

⁸⁹ See, e.g., *Alltel Michigan Order* at 11; *N.E. Colorado Cellular, Inc. d/b/a Viaero Wireless*, Application No. C-3324 (Neb. PSC, Oct. 18, 2005) at 11-12.

in areas where it is cost effective to do so with one-time support.”⁹⁰ Carolina West’s plans for the use of Mobility Fund Phase I support directly support this goal.

58. Designation of Carolina West as an ETC will promote competition and facilitate the provision of high-quality communications services to those living and working within the Company’s proposed service area.⁹¹ Residents in many rural areas have long trailed consumers in urban areas in receiving competitive local exchange service and advanced telecommunications services, and in some rural areas no meaningful choice of local exchange carrier exists. It is also evident that the deployment of high-quality wireless telecommunications infrastructure is essential to economic development in rural areas.

59. Carolina West will have every incentive to meet its commitments made in this proceeding to use Mobility Fund Phase I support to improve its network and reliability. If designated an ETC by the Commission in the proposed ETC service area and successful in obtaining Mobility Fund Phase I support, Carolina West will be able to better compete for customers, service quality and customer service will improve, and 3G services (and, ultimately, 4G services) will be deployed more quickly to more North Carolina residents. Wider local-calling areas and lower prices overall may also be introduced by Carolina West to retain and attract customers.⁹²

⁹⁰ See *CAF Order*, 26 FCC Rcd at 17781 (para. 322).

⁹¹ See *Carolina West Order*, 21 FCC Rcd at 9156 (para. 17) (finding that “Carolina West’s universal service offering will provide a variety of benefits to customers including consumer choice and advantageous service offerings. For instance, universal service support will enable Carolina West to construct facilities to improve quality of service and extend telephone service to people who have no choice of telephone provider.”).

⁹² See *Implementation of Section 6002(b) of the Omnibus Budget Reconciliation Act of 1993, An-*

E. Carolina West’s Designation as an ETC Will Not Result in “Cream-Skimming.”

60. As part of its public interest analysis, the Commission must determine whether Carolina West’s designation will enable it to “cream-skim,” that is, target low-cost portions of a rural incumbent LEC’s service area in which uneconomically high levels of support are available.

61. The purpose of the cream-skimming evaluation that the Commission typically has performed as part of its public interest analysis in reviewing petitions for ETC designation has been to ensure that a competitive ETC does not provide service only in the lowest-cost portions of an incumbent LEC’s service area, and to ensure that the support a competitive ETC receives is reflective of the incumbent LEC’s costs to serve the relevant wire centers.

nual Report and Analysis of Competitive Market Conditions With Respect to Commercial Mobile Service, WT Docket No. 06-17, Eleventh Report, 21 FCC Rcd 10947, 10984-85 (para. 92) (2006) (describing how consumers have benefited from the proliferation of service offerings, including free mobile-to-mobile, nationwide toll-free or roaming-free calling, family plans, and unlimited calling to a list of designated numbers); *Applications of AT&T Wireless Services, Inc. and Cingular Wireless Corp.*, WT Docket Nos. 04-70, 04-254, 04-323, Memorandum Opinion and Order, 19 FCC Rcd 21522, 21554 (para. 63) (2004) (footnote omitted):

By fostering continuing experimentation with a variety of different pricing options, service packages, and policies on handset subsidies, competition to attract and retain customers has resulted in complicated and ever-changing pricing and feature structures. Today all of the nationwide operators offer some version of a national rate pricing plan in which customers can purchase variously sized buckets of minutes to use on a nationwide or nearly nationwide network without incurring roaming or long-distance charges. Other significant trends in mobile telephony pricing have been the offering of free night and weekend minutes, and the expansion of free calling among a particular company’s customers, known as “in-network” or “mobile-to-mobile” calling. Moreover, although most U.S. mobile telephony subscribers pay their mobile phone bills after they have incurred charges (known as postpaid service), all the nationwide operators offer some version of a prepaid service either directly to their retail customers or through third-party resellers.

62. The Commission has been concerned that, if an ETC seeks designation in a disproportionate share of higher-density wire centers in an incumbent LEC's service area, the "ETC may receive more support than is reflective of the rural incumbent LEC's cost of serving that wire center because support for each line is based on the rural telephone company's average costs for serving the entire service area"⁹³

63. The *CAF Order* has eliminated any possibility of cream-skimming by recipients of Mobility Fund support. The Commission has frozen competitive ETC support⁹⁴ and also has provided for the phase-down of this frozen support. Thus, the level of a competitive ETC's support in a given service area is no longer based on the per-line support received by the rural incumbent LEC in that service area.⁹⁵ In addition, the new Mobility Fund support regime adopted by the Commission for wireless competitive ETCs will disburse support to the lowest bidders participating in reverse auctions.⁹⁶ These actions taken by the Commission in the *CAF Order* have the effect of mooted the Commission's prior concerns regarding cream-skimming.

V. HIGH-COST CERTIFICATION.

64. Under Section 54.314 of the Commission's Rules,⁹⁷ carriers wishing to obtain high-cost support must either be certified by the appropriate state commission or, where the state commission does not exercise jurisdiction, must self-certify with the

⁹³ *ETC Designation Requirements Order*, 20 FCC Rcd at 6392 (para. 49).

⁹⁴ See 47 C.F.R. § 54.307(e)(1).

⁹⁵ See *CAF Order*, 26 FCC Rcd at 17825-30 (paras. 498-511).

⁹⁶ See *id.* at 17773-17818 (paras. 301-478), 17824-25 (paras. 493-497).

⁹⁷ 47 C.F.R. § 54.314.

Commission and the Universal Service Administrative Company their compliance with Section 254(e) of the Act.⁹⁸

65. Carolina West commits to use available federal USF support for its intended purposes—the provision, maintenance, and upgrading of facilities and services for which support is intended.⁹⁹ Therefore, Carolina West respectfully requests that the Commission issue a finding that the Company has met the high-cost certification requirement and that Carolina West is therefore entitled to receive federal USF high-cost support.

VI. ANTI-DRUG ABUSE CERTIFICATION.

66. No party to this Petition is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1998.¹⁰⁰

VII. CONCLUSION.

67. For the reasons discussed in this Petition, Carolina West respectfully requests that (1) the Commission act expeditiously to designate the Company as an Eligible Telecommunications Carrier for the requested designated service areas in North Carolina, and for the purpose of participating in Auction 901; and (2) the Commission make such

North Carolina Utilities Commission Certification Order

STATE OF NORTH CAROLINA
UTILITIES COMMISSION
RALEIGH

DOCKET NO. P-100, SUB 133c

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of
Designation of Carriers Eligible for Universal)
Carrier Support) ORDER GRANTING PETITION

BY THE COMMISSION: On August 22, 2003, North Carolina RSA3 Cellular Telephone Company, d/b/a Carolina West (Carolina West), a commercial mobile radio service (CMRS) provider, filed a Petition seeking an affirmative declaratory ruling that the Commission lacks jurisdiction to designate CMRS carrier eligible telecommunications carrier (ETC) status for the purposes of receiving federal universal service support.

In support of its Petition, Carolina West stated that it was a CMRS provider authorized by the Federal Communications Commission (FCC) to provide cellular mobile radio telephone service in North Carolina, and that the FCC had clearly recognized that CMRS carriers such as Carolina West may be designated as ETCs. ETC status is necessary for a provider to be eligible to receive universal service support. Section 214(e)(6) of the Telecommunications Act provides that if a state commission determines that it lacks jurisdiction over a class of carriers, the FCC is charged with making the ETC determination. The FCC has stated that, in order for the FCC to consider requests pursuant to this provision, a carrier must provide an "affirmative statement" from the state commission or court of competent jurisdiction that the state lacks jurisdiction to perform the designation. To date, several state commissions have declined to exercise such jurisdiction.

North Carolina has excluded CMRS from the definition of "public utility." See, G.S. 62-3(23). Pursuant to this, the Commission issued its Order Concerning Deregulation of Wireless Providers in Docket Nos. P-100, Sub 114 and Sub 124 on August 28, 1995, concluding that the Commission no longer has jurisdiction over cellular services. Accordingly, Carolina West has now requested the Commission to issue an Order stating that it does not have jurisdiction to designate CMRS carriers ETC status for the purposes of receiving federal universal service support.

WHEREUPON, the Commission reaches the following

CONCLUSIONS

After careful consideration, the Commission concludes that it should grant Carolina West's Petition and issue an Order stating that it lacks jurisdiction to designate ETC status

for CMRS carriers. As noted above, in its August 28, 1995, Order in Docket Nos. P-100, Sub 114 and Sub 124, the Commission observed that G.S. 62-3(23), enacted on July 29, 1995, has removed cellular services, radio common carriers, personal communications services, and other services then or in the future constituting a mobile radio communications service from the Commission's jurisdiction. 47 USC 3(41) defines a "state commission" as a body which "has regulatory jurisdiction with respect to the intrastate operation of carriers." Pursuant to 47 USC 214(e)(5), if a state commission determines that it lacks jurisdiction over a class of carriers, the FCC must determine which carriers in that class may be designated as ETCs. Given these circumstances, it follows that the Commission lacks jurisdiction over CMRS services and the appropriate venue for the designation of ETC status for such services is with the FCC. Accord., Order Granting Petition, ALLTEL Communications, Inc., June 24, 2003.

IT IS, THEREFORE, SO ORDERED.

ISSUED BY ORDER OF THE COMMISSION.

This the 28th day of August, 2003.

NORTH CAROLINA UTILITIES COMMISSION

Patricia Swenson

Patricia Swenson, Deputy Clerk

EXHIBIT C
Carolina West Certification

CERTIFICATION

State of North Carolina)
)
County of Wilkes)

I, Slayton Stewart, being duly sworn, state that I file this Petition as the Chief Executive Officer of Carolina West Wireless, Inc. ("Carolina West"); that in such capacity, I am qualified and authorized to file and verify such Petition; that I have carefully examined all the statements and matters contained in the Petition; and that all such statements made and matters set forth therein are true and correct to the best of my knowledge, information, and belief.

I further state that Carolina West offers or will be able to offer, all of the services designated for support by the Federal Communications Commission, and for which Carolina West receives support pursuant to Mobility Fund Phase I, throughout the areas in which Carolina West is requesting designation as an Eligible Telecommunications Carrier, that the Petition is made in good faith, with the intention of presenting evidence in support thereof in every particular.

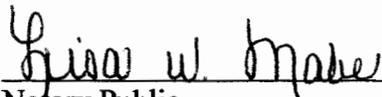

I further certify that, in my capacity as the Chief Executive Officer of Carolina West, that if Carolina West is designated an Eligible Telecommunications Carrier by the Commission, Carolina West will use any Universal Service Fund support received only for the purposes for which the support is intended and that I am authorized to make this certification on behalf of Carolina West.

Executed on May 3, 2012

Slayton Stewart
Chief Executive Officer
Carolina West Wireless, Inc.

Subscribed and sworn to before me, a Notary Public in and for the State and County named above, this 3rd day of May, 2012.

Notary Public

My Commission Expires: October 10, 2012

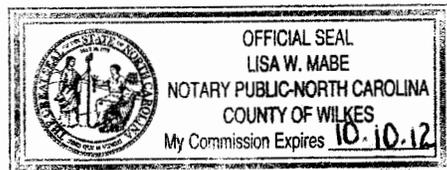

EXHIBIT D

Carolina West's Service Improvement Plan

**This Exhibit Is Withheld from the Public Copy
As the Filer Has Requested Confidential Treatment**
