Dear FCC Commissioners,

I rely on devices that use unencrypted signals such as the Boxee Box, HD HomeRun, EyeTV, and computer TV tuner cards to watch TV.

It has always been the policy of our government that the broadcast channels are meant to be freely available over the air and by other means. There is no reason to change this policy now just because the cable companies want every home and apartment to have one of their set-top boxes and a paying subscription from them.

I hope you will not allow them to encrypt these signals.

Thank you for your service, and hearing my voice and representing me before them.

Sincerely,

Joseph DeVenuta, Sr.
