

I have got to somehow resolve my last statements, smooth over the thing about zimms. It's safe to say that Florida judge a few days ago wanted to appease to potential rioters by bring up bail money. Actually, the Feds should investigate this Florida judge as to his money offers lately, future hollywood book deals etc. It's off sync how that florida judge revoked that bond. Again, the judge wanted to make sure he looked pretty for the camera's in this Marsha Clark, OJ Da thing.

It's about looking up to God in Heaven, it's not a racial issue. I know and you know that many robberies and rapes occured by hooded figures, and police have been shot at by these hoodies. These former victims must have gritted their teeth as these hoodies on cameras in florida. In SanFrancisco, some white former mayor embarressed herself by dressing in a to shop support.

It's not a racial thing in the sense that God loves everyone equally, and it's about God. Christ said love your enemies and forgive. Many in the zimms case of the farakhaan cult espouse eye for eye-the only problem is, those judges and governors that acquiesce to serve the electric chair penalty and committing murder themselves. The eye for eye philosophy that these potential florida rioters are talking about means, if a judge sentences a man to death, then the judge must be judged, etc. This is where all these wars are coming from. We are doing this eye for eye, tooth for tooth thing, where there is no end to this violence.

I remember all the good african americans that I have met and been influenced with in my life. many good African american pastors in southern california that fed me the word of God and also fed me meals and clothed me. Same thing for hispanic americans, that clothed and fed me. So for Glenn to suddenly to start making this a racial issue, would be foolish and hypocritical for me in my eyes and in the eyes of God.

After that Tucson 2011 Auburn 19 Glendale thing, Attorney General Eric Holden quoted from the book of Paul in the new Testament, which was good, and actually, no white caucasian modern attorney would quote from the new testament. Glenn personally would have quoted the words of Jesus Christ. Christ's words are the words of God. Paul is a man.

But that was important that the words of Paul in the new testament were read. It's about God, Jesus Christ and the Bible. Not about the Reverend barry lynn and Jesse jackson.

And there are white people who have done me great injustice, meaning, there are some very good Christian African Americans, while at the same time there are quite a few white who practice evil. It's not a racial thing. The soul question for America is do we convict a man because rioter have given the orders for justice, or do we give an individual a true fair trial, regardless if the rioters are successful. One is about the soul of man..the other is about personal property.

The fed courts are taking the cowardly path in the florida case, and the foolish path in the public prayer in school issue.

It's kind of like all that pomp and ceremony in the British regal. Many americans are turned off by that pomp and ceremony.

The Fed courts on the one hand are claiming to uphold the individual in the lone atheist versus a school board or school district. This is likened to that british pomp thing.

The russian scorpion sub on the east coast is a must. Zimms will be convicted because the rioters have threatened, and Congress and the exec branches negotiated with these florida terrorist rioters. Viet cong (2012 simile to be safe) threatened and the Congress and Prez refused to negotiate.

The cowardly stance is the prayer in school stance by the courts.

Ask yourself. Would we be better off not having to discuss the prayer in school issue if the russian sub scorpion sucessfully carried out it's mission??

There is only one true way this prayer in school thing can be resolved, and thank God for the Russian scorpion submarine.

Back to the zimms thing. Christ said beware of the leaven of the pharisees and the scribes. Christ said you shall know them by their fruits. Do men gather grapes from thorns, or figs from thistles? Many purporting to be civil rights leaders are men and women of hate.

Christ said you shall know them by their fruits. We, the good people and good Americans of all races, must have faith in God.

The zimms is the latest case where individual that hate people that publically come out to claim to be of civil rights and love and justice.

Many of these have already made themselves publically known and spoken out in the zimms case.

They are wolves in sheep clothing.

Christ said if the blind lead the blind, they shall both fall into the ditch. The good righteous Americans who love all people must trust in God, and Love God and love our neighbors. Many in this zimms case that are against zimms are people who hate, who espouse they are for love.

We must trust God. We reap what we sow.

hate and sin is and love and righteousness sees no skin color or nationally or race. People of all races equally hate Glenn or love Glenn. Glenn was banned mostly by white people.

In fact, in my toyota 2006 camry, God voice told me in Ohio...."There's a Hoe Lee..There's a Holy.....and it's called Harper's Ferry...."
