

DEAR SENATOR GILLIBRAND,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable companies. The FCC and DOJ should not approve this deal, which destroys good, union jobs, and is also bad for customers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and cable, ending any incentive to invest in FiOS and compete against cable. There will be fewer jobs building, maintaining, servicing and installing the FiOS network.

Buffalo, Syracuse, Albany, other Upstate cities and rural areas, as well as Eastern Long Island, will all get left behind with no cable competition, costing CWA and IBEW jobs. Even regions with FiOS could be affected, since there will be far less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs, as well as hurt consumers. Thank you for your consideration.

Sincerely,

Jose Lopez

Dear Senator Gillibrand,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable companies. The FCC and DOJ should not approve this deal, which destroys good, union jobs, and is also bad for customers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and cable, ending any incentive to invest in FiOS and compete against cable. There will be fewer jobs building, maintaining, servicing and installing the FiOS network.

Buffalo, Syracuse, Albany, other Upstate cities and rural areas, as well as Eastern Long Island, will all get left behind with no cable competition, costing CWA and IBEW jobs. Even regions with FiOS could be affected, since there will be far less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs, as well as hurt consumers. Thank you for your consideration.

Sincerely,

Wyman

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and cable, ending any incentive to invest in FIOS and compete against cable. There will be fewer jobs building, maintaining, servicing and installing the FIOS network.

Buffalo, Syracuse, Albany other Upstate cities and rural areas, as well as Eastern Long Island, will all get left behind with no cable competition, costing CWA and IBEW jobs. Even regions with FIOS could be affected, since there will be far less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs, as well as hurt consumers. Thank you for your consideration.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary, Verizon Wireless, will form a giant unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and cable ending any incentive to invest in FLDs and compete against cable. There will be fewer jobs building, maintaining, servicing and installing the FLD network.

Buffalo, Syracuse, Albany, other upstate cities and rural areas as well as Eastern Long Island will all get left behind with no cable competition, costing CWA and IBEW jobs. Even regions with FLDs could be affected, since there will be far less incentive to invest in the network.

I urge you, sir, to reject this proposed deal because it will hurt customers as well as destroy jobs.

Thank you for your consideration.

This deal will be very profitable for Verizon
