

To FCC Commissioners Genachowski, Clyburn and McDowell:

<br />

<br />If this ban has been in place for 35 YEARS, it should show that it was placed there for good reason. When big corporations dominate the &#39;little people&#39; what will happen then? Isn&#39;t our unemployment rate high enough? Isn&#39;t our pay low enough? The American People used to enjoy more freedoms than we do now, and that is a crying shame. Have we gone backward in our thinking ? Do Americans really want &#39;limited access&#39;? It is wrong when the American People can not &#39;choose&#39; to watch a broader choice of programming and then the gov&#39;t polls say &#39;everyone watched so and so show&#39; ...well, it&#39;s no wonder they watched...there isn&#39;t a lot of choice. Our media is also being censored without cause. It should not keep the citizens of america hearing only what the gov&#39;t thinks we should hear....keeping us &#39;dumbed down&#39; on the events of the world or down the street.

<br />

<br />Please STAND for the little Guy, who is the &#39;lifeblood&#39; of this great Country We Call America.

<br />

<br />

<br />Regards,

<br />

<br />Etta Melton
