

To FCC Commissioners Genachowski, Clyburn and McDowell:

It seems clear that we need diversity among media... and to deny this is very unAmerican. I don't want to live in a country where we have a singular (or even limited) media voice to listen to. Please protect our media... or else I fear the worst for the future of this country. We all know the impact the media has on the public.. it would be devastating if this were controlled by a single entity.

Regards,

Ryan
