

To FCC Commissioners Genachowski, Clyburn and McDowell:

<br />

<br />I am writing to voice my opinion to keep in place the restrictions on media ownership. It is already the case that too few entities control too much of our media landscape &#40;6 corporations control over half of what we watch and read each day&#41;;, and these rules are all that is holding back the tide that would wipe away what ownership and opinion diversity that remains. Ensuring quality, which can only happen with ownership diversity, is one of the principal roles of the FCC. Please keep the media ownership rules in place.
