

To FCC Commissioners Genachowski, Clyburn and McDowell:

What you are planning to do (lifting the ban) very well goes against what you supposedly stand for, especially seeing as how if media is monopolized then we have lost a great deal of what it means to be a democratic nation. I do hope you take the time to rethink what you are doing, after all everyone deserves a chance to speak what they want without having a corporate giant press them. When you lift a ban like this, it has the ability (and will more than likely) cause thousands of independent or smaller media sources to be knocked out, thus cutting more jobs and in this day and age that's the last thing we need.

Regards,

James Williams
