

To FCC Commissioners Genachowski, Clyburn and McDowell:

<br />

<br />We need to save our independent media! It's scary to hear six giant corporations control more than half of what people watch and read. Lifting the ban on TV&minus;newspaper dual ownership would give large corporations like GE too much power and hurt the smaller, independent media that we desperately need.

<br />

<br />Local newsrooms are closing and investigative journalism is disappearing. The FCC was created to protect the public voice, so the public expects you to honor that job!!

<br />

<br />

<br />Peace,

<br />

<br />Karen
