

To FCC Commissioners Genachowski, Clyburn and McDowell:

Any decision made ending safeguards against media monopolies is a threat to not only our democracy, but to the harmony and wellness of our society. Ensuring media empires get a hold on what is propagated widely and what is left on the cutting room floor seems ignorant.

Enough bending to the greedy demands of big cooperations whose interests are seldom (ever?) in the interest of us all. Do what is right.

Regards,

Edward J. Wilhelm, II
