

To FCC Commissioners Genachowski, Clyburn and McDowell:

Please do not lift the ban preventing media monopolies. Six giant corporations control more than half of what we watch and read every day−−this is unacceptable and a threat to democracy if what we know about the world is fed to us by a few corporations. Can Orwell's 1984 be far behind? The FCC was created to protect the public voice, not drown it. I expect the FCC to do its job and ensure that citizens of this country get to hear a wide range of voices giving us their take on the latest news. We do not want our news censored by a few media giants!
