

To FCC Commissioners Genachowski, Clyburn and McDowell:

<br />

<br />Dear Sir/Madame:

<br />

<br />The age of monopolies is over. Or should be. We should not have to as citizens worry about large corporations controlling something that belongs to the public.

<br />

<br />TV and Internet must belong to the people not rich old men sitting in ivory towers. Our children deserve better.

<br />

<br />

<br />Regards,

<br />
