

To FCC Commissioners Genachowski, Clyburn and McDowell:

<br />

<br />Please help insure our right to democracy with liberty & justice. Beginning with the right to honest & untainted media. The media has already been monopolized in our country to an extensive degree due to the corporate control not being balanced among enough diverse ownership. The public voice news is being collapsed by this monopoly. Please protect our freedom of speech through protecting the media with necessary guidelines to avoid it as a means of corporate dictating of information.

<br />

<br />I appreciate your time & dedication to helping our country to stay on a conscious path.

<br />

<br />Regards,

<br />

<br />Cynthia Borna
