

To FCC Commissioners Genachowski, Clyburn and McDowell:

[We have this Law in place to prevent Left Wing Parties, and Socialists like Soros, and Murdoch, and Gates, and Obama, and groups with agendas from slanting News one way, "their Way!

 It seems that the ruling Party is desperately trying to gain a Russian Style hold on Information before they are removed from office. Truth it seems, is their Enemy.

 Do not pass this Thing into Law, you don't seem to know it, but this is our country, not yours! Keep pushing, there's a reason Japan never tried to invade America during WW II, you've pushed as far as we will allow.]
