

My name is Jeff Marchitti and I live at 6185 Bruma ave and have had a lot a of electronic problems with computers cell phones satallite even home phones...I was speaking to my neighbor across from me and he was telling that it was a project that him and his family and some neighbors were doing which was drawing current off power lines and and using low frequencies abnd alot of antennas which he said after lowering to a low freq. he enough power to give even pets epileptic seizures! about 6 months ago crazy as it may sound my dog had started having many complications both of them actully!!so about 2 months ago I asked him how things were going and he claims that they have figured it out and could get the frequencies of the human brain!! Weird by also adding a magnetic force to this project but as crazy as it may seem scence then I have felt extremely unussual!! These people Live at 6210 Bruma and also said to have claimed there were many family members that lived on the block also at 6220 Bruma ave and also 6190 Bruma ave which is straight accross the street from my house! The Naro family at 6220 is the one that said there doing this to pets and people on our street... thank you very much for helping me with this situation!!!
