ETC Reporting Requirement in compliance with 3 AAC 53.460  
For Adak Eagle Enterprises LLC, CPCN: 702

53.460 Reporting requirements:

(a) A common carrier designated as an eligible telecommunications carrier shall provide on or before March 31 of each year

(1) An update of the common carrier's network deployment plan that details services provided within the eligible telecommunications carrier service area and includes

(A) Maps detailing progress towards meeting network deployment plan targets;

Adak Eagle Enterprises d/b/a Adak Telephone Utility (AEE) is the facilities-based incumbent local exchange carrier (ILEC) and pursuant to 3 AAC 53.290(c) is the designated carrier of last resort (COLR) in its study area. As COLR, Adak Telephone Utility is fully deployed throughout its service area and per 3 AAC 53.460(c) is not required to provide an update to a network deployment plan.

(B) The amount of universal service support received;

During 2011, Adak Telephone Utility received \$1,191,737.00 in High Cost Loop Support; \$927,528 in Interstate Common Line Support; \$559,020 in Local Switching Support; and \$2,638 in Lifeline/Linkup Support, for a total of \$2,680,923 in federal universal service support.

(C) An explanation of how universal service support was used in the previous year to improve service quality, coverage, or capacity;

AEE used the universal service support received in 2011 for the provision, maintenance, and upgrading of facilities and services for which the support is intended pursuant to 47 U.S.C. § 254(e) and 47 C.F.R. § 54.7. AEE treats its universal service support receipts as a reduction to its local service costs (normalized local revenue requirement) used to set local service rates, in order to benefit its customers by offering service rates in the rural study area that are comparable to rates in urban areas, pursuant to the universal service goals set forth in 47 U.S.C. § 254(b).

(D) An explanation regarding network improvement targets that have not been fulfilled and identification of any unserved areas; and

Not required pursuant to 3 AAC 53.460(c).

(E) An explanation of any revisions to the previously filed network deployment plan;

AEE is an ILEC and COLR and has not filed a network improvement plan with the Commission. Thus, there are no revisions to any such plan.

(2) a certification that the common carrier provided service throughout its eligible telecommunications carrier service area in the past calendar year to all customers requesting service except as described in (3) of this subsection;

AEE certifies that it has provided service throughout its eligible telecommunications carrier service area in the past calendar year to all customers requesting service

(3) an explanation of each instance in which a customer was denied supported services and a detailed explanation of the steps taken to provide service;

AEE is not aware of any instance in which a n AEE was denied supported services during 2011.

(4) the number of complaints to the commission or the Federal Communications Commission by study area and service area, comparing the number of complaints to the total number of handsets or lines served by the carrier by study area and service area;

AEE in not aware of any such complaints in 2011.

(5) a certification that the common carrier is in compliance with applicable consumer protection and service quality standards set out in 3 AAC 53.450;

AEE certifies that it is in compliance with applicable consumer protection and service quality standards set out in 3 AAC 53.450(a) and (c), as follows:

(a) Maintains at least one business office, with toll-free calling if necessary, staffed during commission business hours, to provide customers with access to personnel who can timely provide information on services and rates, accept and process service application, explain and adjust bills, and generally represent the carrier.

(c) Commits to maintaining, in an easily accessible location on the company's website, consumer complaint procedures.

As to 3 AAC 53.450(b), by its terms that subsection refers only "a wireless carrier." AEE is not a wireless carrier.

(6) A certification that the common carrier complies with requirements set out in 3 AAC 53.410(a)(12) regarding functionality in emergency situations;

AEE certifies that it complies with requirements set out in 3 AAC 53.410(a) (12) regarding functionality in emergency situations by: (A) maintaining at least eight hours of backup power to ensure functionality without local alternating current (AC) commercial power; (B) establishing to the extent feasible the ability to reroute traffic around damaged facilities and to manage traffic spikes resulting from emergency situations; and (C) establishing procedures for employees to follow in an emergency to prevent or minimize interruption or impairment of services.

(7) Copies of any outage reports mandated by the commission or the Federal Communications Commission;

Adak Telephone Utility is required to report outages to the Regulatory Commission of Alaska in compliance with Order No. U-03-76(1). Copies of reports submitted during the 2011 calendar year are attached in Attachment A.

(8) a certification that the common carrier complies with 3 AAC 53.410(a)(14) by offering one or more calling plans comparable to those of the incumbent local exchange carrier, including a calling plan with at least 500 free minutes of local usage per month; and

Not applicable. AEE is an ILEC. As such, this certification is inapplicable to AEE.

(9) Affidavits of publication from the prior calendar year demonstrating that the common carrier advertised the availability of supported services throughout the eligible telecommunications carrier service area.

There are no options for formal publication of advertisements on Adak Island. AEE advertised the availability of supported services throughout the eligible telecommunications carrier service area through continued website posting and local television community channel posting. AEE also on multiple occasions posted posters in local establishments on Adak Island. Examples of posters and publications handed out and hung at business establishments are attached in Attachment B. In addition, on two occasions, notices regarding Lifeline options were sent to all AEE customers in a separate publication. (See Attachments). Finally, AEE advertised Lifeline options in the Dutch Harbor newspaper. (See Attachments).

(b) A common carrier designated as an eligible telecommunications carrier before July 12, 2009 must submit an initial annual report that includes a certification that the carrier will comply with 3 AAC 53.410(a)(7), (16), and (17).

AEE certifies that it:

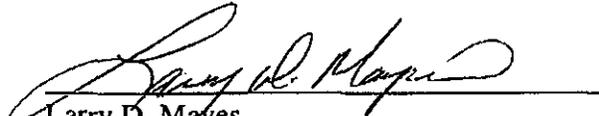

(1) is committed to provide service on a timely basis to requesting customers throughout the common carrier's eligible telecommunications carriers service area using its own facilities or a combination of its own facilities and resale in accordance with the common carrier's network deployment plan . . . .

(B) to file a report in accordance with 3 ACC 53.460(a)(3) of any instance in which the carrier is unable to fulfill a customer request for service;

(2) acknowledges it may be required to provide equal access to long distance carriers if no other eligible telecommunications carrier provides equal access within the eligible telecommunications carrier service area; and

(3) with respect to universal service support for high-cost areas, is committed to use that high-cost universal service support for the provision, maintenance, and upgrade of facilities and services that benefit the eligible telecommunications carrier service area from which the support was derived.

As to 3 AAC 53.410(a)(7)(A), that subparagraph requires an eligible telecommunications carrier to "provide service on a timely basis to requesting customers throughout the common carrier's eligible telecommunications carrier service area using its own facilities or a combination of its own facilities and resale *in accordance with the common carrier's network deployment plan filed under 3 AAC 53.420 and revised under 3 AAC 53.460(a)(1).*" (Emphasis added). AEE is an ILEC and COLR for local exchange service. As such, it has not filed a network deployment plan with the Commission and thus cannot commit to providing services in accordance with a network deployment plant. However, AEE does commit to provide service on a timely basis to requesting customers throughout AEE's service area in accordance with the provisions of its tariffs and applicable RCA regulations.

Public Notice

**NOTICE OF AVAILABILITY OF DRAFT ENVIRONMENTAL ASSESSMENT AND UPCOMING PUBLIC MEETING**

**Dillingham Airport Improvements**  
 Project No.: 59304  
 Alaska Department of Transportation and Public Facilities

This project has been developed in accordance with Section 106 of the National Historic Preservation Act; Executive Orders: 11990 (Wetlands Protection), 11988 (Floodplain Protection), 12698 (Environmental Justice), 11593 (Historic Preservation), 13084 (Consultation and Coordination with Indian Tribal Governments) the Clean Air Act, Clean Water Act, Coastal Zone Management Act, Fish and Wildlife Coordination Act, and U.S. DOT Act Section 4(f).

The Alaska Department of Transportation and Public Facilities (DOT&PF) and the Federal Aviation Administration (FAA), announce the availability of the Draft Environmental Assessment (EA) and the upcoming public meeting for the proposed Dillingham Airport Improvements Project. Dillingham is located approximately 327 miles southwest of Anchorage. The proposed project is intended to improve safety and operational deficiencies of the Dillingham Airport to meet FAA established Runway Safety Area (RSA) standards to the extent practicable. The proposed project would need to make the following changes to extend the RSA:

- Construct approximately 800 feet of West Airport Road to connect around the north side of the General Aviation Apron for airport and residential access;
- Close the public connection of North Airport Road with Wood River Road; and
- Relocate fences and FAA facilities/utilities to facilitate the improvements.

Construction for the proposed project is anticipated to begin this summer (2012). The Draft EA is available for review at the DOT&PF Central Region office, located at 4111 Aviation Avenue in Anchorage and on the DOT&PF website at <http://www.DillinghamAirport.com>. If you have questions, require additional information, or would like a copy of the EA, please contact Teresa Zimmerman, Environmental Team Leader, at (907) 269-0551, or via email at [teresa.zimmerman@alaska.gov](mailto:teresa.zimmerman@alaska.gov). The public meeting will be held on April 18, 2012 from 6-8 p.m. at the Dillingham City Hall.

Written comments can be given on the website above, at the public meeting, and at the address below until April 25, 2012.
