**T-MOBILE USA, INC. ELIGIBLE TELECOMMUNICATIONS CARRIER  
ANNUAL REPORT AND CERTIFICATIONS**

Filed Pursuant To:  
47 C.F.R. § 54.313  
WC Docket No. 10-90

July 2, 2012

T-Mobile USA, Inc., parent company to T-Mobile Central LLC, a wholly-owned subsidiary of T-Mobile USA, Inc. (collectively referred to and doing business as “T-Mobile”) hereby submits its Annual Report and Certifications (“Annual Report”), pursuant to 47 C.F.R. § 54.313 on behalf of its Eligible Telecommunications Carrier (“ETC”) designation in Louisiana for Universal Service Administrative Company (“USAC”) assigned study area code 279046.<sup>1</sup>

On October 27, 2011, the Federal Communications Commission (“Commission”) adopted broad changes to certain Universal Service Fund mechanisms, including modifications to the requirements for ETC reporting and recertification.<sup>2</sup> In the *USF/ICC Transformation Order*, the Commission adopted new annual reporting requirements for ETCs.<sup>3</sup> The Commission also delegated to the Wireline Competition Bureau and the Wireless Telecommunications Bureau (“Bureaus”) the authority to revise and clarify rules as necessary to ensure that the reforms adopted in the *USF/ICC Transformation Order* were properly reflected in the rules. Thereafter, on February 3, 2012, the Bureaus released an Order clarifying certain reporting requirements, including those specifically

related to ETCs that are subject to state commission authority.<sup>4</sup> The Bureaus noted that they would provide impacted ETCs sufficient time to file the annual reports after the FCC obtained approval for the information collection from the Office of Management and Budget under the Paperwork Reduction Act. On May 8, 2012, the Wireline Competition Bureau notified carriers that the annual reports for 2011 would be due on July 2, 2012.<sup>5</sup> Accordingly, this annual report and the certifications contained herein and attached comply with the new reporting requirements found in 47 C.F.R. § 54.313, which reflect the rule changes adopted in the *USF/ICC Transformation Order* and the *Clarifying Order*.

## **1. Service Area**

In the *Designating Order*, the Louisiana Commission designated T-Mobile as an ETC, pursuant to 47 U.S.C. § 214(e)(2), in certain non-rural telephone company wire centers and rural telephone company study areas in Louisiana for purposes of receiving federal universal service support. Attached as Exhibit A is a list of the areas included in T-Mobile's ETC service area in Louisiana.

## **2. Louisiana Reporting Requirements**

The Bureaus concluded in the *Clarifying Order* that if state-designated ETCs are required to report to the state commission some or all of the information required in the newly adopted Section 54.313(a)(2) – (a)(6), the ETCs also should file a copy of that information with the Commission in 2012.<sup>6</sup> T-Mobile is required to provide the

following information to the Louisiana Commission and therefore is providing a copy to the Commission, consistent with the *Clarifying Order*.

**a. Network Outages**

47 C.F.R. § 54.313(a)(2) requires ETCs to submit detailed information on any outage in the prior calendar year, as that term is defined in 47 C.F.R. § 4.5, of at least 30 minutes in duration for each service area in which the ETC is designated for any facilities it owns, operates, leases, or otherwise utilizes that potentially affects: (i) at least ten percent of the end users served in a designated service area; or (ii) a 911 special facility, as defined in 47 C.F.R. § 4.5(e). Specifically, ETCs' annual report must include information detailing:

- (a) the date and time of onset of the outage;
- (b) a brief description of the outage and its resolution;
- (c) the particular services affected;
- (d) the geographic areas affected by the outage;
- (e) steps taken to prevent a similar situation in the future; and
- (f) the estimated number of customers affected.

T-Mobile evaluates each network outage on a case-by-case basis to determine the cause of the outage, the impact on services and customers, a resolution, T-Mobile's ability to meet its service provisioning obligations, including the availability of 911 services, and the steps that can be taken to prevent future outages. T-Mobile did not incur any reportable outages for the period in which it was designated as an ETC in 2011. T-Mobile commits to remain vigilant to prevent outages in the future.

**b. Unfulfilled Requests For Service**

47 C.F.R. § 54.313(a)(3) requires ETCs to submit the number of requests for service from potential customers within the ETCs' service areas that were unfulfilled during the prior calendar year, and an explanation of how the ETC attempted to provide service to those potential customers. T-Mobile includes as Confidential Exhibit B its unfulfilled service request report for 2011.

**c. Complaints Per 1,000 Connections**

47 C.F.R. § 54.313(a)(4) requires ETCs to submit the number of complaints per 1,000 connections. The number of complaints per 1,000 connections T-Mobile addressed for the period of January through December 2011 is identified in Confidential Exhibit C. These complaints include formal complaints filed with T-Mobile and outside agencies, such as the Commission, the Louisiana Commission, the Office of the Attorney General, and the Better Business Bureau in the state of Louisiana.

**3. Price Offerings**

47 C.F.R. § 54.313(a)(7) requires ETCs to provide their price offerings in a format as specified by the Wireline Competition Bureau ("WCB"). T-Mobile makes available several different rate plans with varying amounts of intra and interstate usage, variant calling services and different calling areas, in addition to offerings that include additional services. The WCB has not yet provided guidance regarding the specific format of the pricing data, therefore, T-Mobile includes details regarding some of its currently offered rate plans, which is attached as Exhibit D. T-Mobile commits to amend this list to comply with any later WCB guidance to the extent required or requested to do so.

**4. Entity Affiliation**

47 C.F.R. § 54.313(a)(8) requires ETCs to identify any holding company, operating companies, affiliates, and any branding, as well as universal service identifiers for each such entity by Study Area Codes, as that term is used by the Administrator. T-Mobile Central LLC is a wholly-owned subsidiary and operating entity of T-Mobile, with USAC assigned study area code 279046 to represent its service area in Louisiana. T-Mobile Central LLC provides service in Louisiana under the T-Mobile brand name.

**5. Annual Report Certifications**

47 C.F.R. § 54.313 requires ETCs to include certain certifications in their annual report. Each certification that T-Mobile is required to make is discussed in detail below, and T-Mobile's certification to each requirement is included as Exhibit E.

**a. Service Quality Certification**

47 C.F.R. § 54.313(a)(5) requires ETCs to certify that they are complying with applicable service quality standards and consumer protection rules. T-Mobile is a signatory to CTIA-The Wireless Association's® Consumer Code for Wireless Service, which is the applicable service quality and consumer protection standard for wireless carriers. T-Mobile has been consistently certified by CTIA-The Wireless Association® as being compliant with this code since 2003. T-Mobile was most recently re-certified by CTIA-The Wireless Association® as being compliant with this code on October 7, 2011. A copy of T-Mobile's most recent letter confirming its certification from CTIA-The Wireless Association® is attached as Exhibit F.

By the attached certification, T-Mobile hereby certifies that it complies with applicable service quality standards and consumer protection rules.<sup>7</sup>

**b. Ability To Remain Functional In Emergency Situations Certification**

47 C.F.R. § 54.313(a)(6) requires ETCs to certify that they are able to function in emergency situations as set forth in 47 C.F.R. § 54.202(a)(2). T-Mobile is able to function in emergency situations and demonstrates “that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”<sup>8</sup> In particular, T-Mobile has the following capabilities to remain functional in emergency situations:

- Availability of fixed and portable back-up power generators at various network locations throughout T-Mobile’s network that can be deployed in emergency situations.
- Ability to reroute traffic around damaged or out-of-service facilities through the deployment of cell-on-wheels (“COWs”), redundant facilities, and dynamic rerouting of traffic over alternate facilities.
- A network control center that monitors network traffic and anticipates traffic spikes, and can then: (i) deploy network facilities

<sup>7</sup> See CTIA-The Wireless Association’s® Consumer Code for Wireless Service, *available at* [http://files.ctia.org/pdf/The\\_Code.pdf](http://files.ctia.org/pdf/The_Code.pdf). Signatories to the CTIA Consumer Code agree to: (1) disclose rates and terms of service to consumers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; (10) abide by policies for protection of customer privacy; and (11) provide consumers with free notifications for voice, data, and messaging usage, and international usage.

<sup>8</sup> 47 C.F.R. § 54.202(a)(2).

to accommodate capacity needs; (ii) change call routing translations; and (iii) deploy COWs to temporarily meet traffic needs until longer-term solutions, such as additional capacity and antenna towers, can be deployed.

- In the limited instances where T-Mobile has sites not equipped with fixed generators, the majority have battery back-up systems installed to maintain service in the event of a widespread power outage.

By the attached certification, T-Mobile hereby certifies that it is able to function in emergency situations.

**6. Other Reporting Requirements Not Applicable in 2012**

47 C.F.R. § 54.313 also identifies other reporting requirements, but the Commission has concluded that certain reporting requirements may not be applicable in 2012 for various reasons. Included below are the reporting requirements that are not applicable to T-Mobile in 2012.

**a. Progress Report on Service Improvement Plan**

47 C.F.R. § 54.313(a)(1) requires ETCs to submit a progress report on its five-year service quality improvement plan (“SIP”) filed pursuant to 47 C.F.R. §54.202(a), including maps detailing its progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve service quality, coverage, or capacity, and an explanation regarding any network improvement targets that have not been fulfilled in the prior calendar year. Pursuant to the *Clarifying*

*Order*, state-designated ETCs need not file progress reports on their SIPs in 2012.<sup>9</sup> T-Mobile will provide a copy of its progress report on its SIP to the Commission in 2013, consistent with the *Clarifying Order* and any later guidance provided by the Commission.

**b. Tribal Lands**

47 C.F.R. § 54.313(a)(9) requires ETCs serving federally recognized Tribal lands to, beginning April 1, 2013, file documents or information demonstrating that the ETC had discussions with Tribal governments that, at a minimum, included:

- (i) A needs assessment and deployment planning with a focus on Tribal community anchor institutions;
- (ii) Feasibility and sustainability planning;
- (iii) Marketing services in a culturally sensitive manner;
- (iv) Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes; and
- (v) Compliance with Tribal business and licensing requirements.

T-Mobile's ETC service area in Louisiana includes portions of or the entirety of the Chitimacha Reservation and the Coushatta Reservation. Consistent with 47 C.F.R. § 54.313(a)(9) and the *Clarifying Order*,<sup>10</sup> T-Mobile will undertake the required tribal consultation in 2012 and include the information identified above in its 2013 annual report.

---

<sup>9</sup>See *Clarifying Order*, 27 FCC Rcd at 607.

<sup>10</sup>See *id.* at 608.

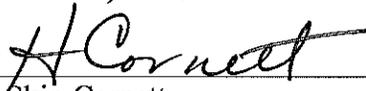

**CONCLUSION**

Based on the foregoing information, T-Mobile respectfully requests the Commission accept its 2012 Annual Report for receipt of high-cost federal universal service support in accordance with 47 C.F.R. § 54.313, find that T-Mobile is in compliance with the same, and certify that T-Mobile is eligible to receive high-cost federal universal service support.

### How much high-speed data do you need?

- With T-Mobile's unlimited data plans (2 GB, 5 GB and 10 GB of high-speed data), you'll never have surprise costs or be cut off.
- If you use more high-speed data than your unlimited plan covers, we simply allow you to access the Web at up to 2G speeds.
- You can upgrade to a bigger data plan at any time.

### Find the data plan that fits you.

Recommended for, but not limited to:

- Occasional email with attachments
- Occasional Web surfing (checking news, weather and sports scores)
- Navigation
- Social networking posts and photo uploads
- Downloading music and games

Recommended for, but not limited to:

- Frequent email with attachments
- Daily Web surfing and online gaming
- Social networking posts and photo/video uploads
- Downloading music, games and movies
- Streaming music, TV, movies and video chat

Recommended for, but not limited to:

- All of the above with increased frequency or extended use of streaming activities
- Also compatible with tethering plans (available at an additional monthly charge)

Add 200 MB of high-speed data to Talk + Text plans for just \$10 more per month. Overages are 10¢ per MB.

Prices reflect monthly recurring charges; taxes and fees additional. Text plans include unlimited nationwide text, and picture and video messaging.

The ability to send/receive messages is included with all T-Mobile service, and the ability to access data (e.g., the Web) is included with all post-paid service, on compatible devices. Some plans and features include unlimited messaging/data or message/data allotments. If you don't have a plan or feature that includes messaging/data, messages you send/receive and data that you use will be charged to your account on a per use basis. See [www.T-Mobile.com](http://www.T-Mobile.com) for messaging/data rates and for message blocking and data usage opt-out options.

**All Pricing:** Limited-time offers; subject to change. Taxes and fees additional. Post-paid only. Rates apply only to services used and calls originating and received within the U.S. (unless stated otherwise). International use incurs additional separate charges. Compatible device required; not all features or plans available on all devices. **Unlimited features for direct U.S. communications between two people.** **General Terms:** Credit approval, \$35 per line activation fee, deposit and two-year agreement with up to \$200/line early cancellation fee required. If you switch plans you may be bound by existing or extended contract term (including early cancellation provisions) and/or charged an up to \$200 fee. You may be unable to switch to some plans. Additional requirements may apply to business customers; Premier and other business/association discounts may not be available. Regulatory Programs Fee (not a tax or government-mandated charge) of up to \$1.61 per line/month applies. Taxes approximately 6%–28% of your monthly bill. Overage usage extra; partial minutes/megabytes rounded up. Talk overage charge of \$0.45/minute. Some calls/features involve multiple calls; each call incurs separate charges. **Nights and Weekends:** Weekends are midnight Friday to midnight Sunday, and nights are 9:00 p.m. to 6:59 a.m. Monday–Friday, based upon start time of call. Different terms apply to FlexPay and prepaid. **T-Mobile to T-Mobile** calls are directly dialed between T-Mobile customer devices while on the T-Mobile USA network (and not roaming on any domestic or international network); calls to voicemail and other T-Mobile service numbers not included. **Messaging:** You will be charged for all messages you send and that are sent to you even if they aren't received. Length/size of messages may be limited. **Web/Data:** For unlimited data plans, full speeds available up to monthly data allotment; after allotment used, speeds slowed to up to 2G speeds for remainder of billing cycle. For 200 MB plan, overage of \$0.10/MB after monthly data allotment is used. **Your data session, plan or service may be slowed, suspended, terminated or restricted** if you use your service in a way that interferes with or impacts our network or ability to provide quality service to other users, if you roam for a significant portion of your usage, or if you use a disproportionate amount of bandwidth during a billing cycle. You may not use your plan or device for prohibited uses. **Tethering and Wi-Fi Sharing:** Monthly data allotment included with qualifying phone data plan applies. Use of connected devices subject to T-Mobile terms and conditions. **Downloads/Applications:** Additional charges may apply; not all downloads are available on all phones. T-Mobile is not responsible for any third-party content or website you may be able to access using your phone. You obtain no rights in downloads; duration of use may be limited and downloads may be stored solely for use with your phone. T-Mobile is not responsible for any download lost due to your error. T-Mobile is not responsible for apps, including download, installation, use, transmission failure, interruption or delay, third-party advertisements you may encounter while using an app, alterations any app may make to the functionality of your device, including any changes that may affect your T-Mobile plan, service, or billing, or any content or website you may be able to access through an app. **Coverage:** Not available everywhere. **Abnormal Usage:** Service may be limited or terminated for misuse, abnormal usage or significant roaming. **Bill Details:** Your bill summarizes your charges, fees and taxes, but does not include the details of services used. You may view bill details at [my.T-Mobile.com](http://my.T-Mobile.com) or, for an additional charge, we will provide detailed bills. We do not provide bills to FlexPay and prepaid customers. Plans with data are charged the daily rate when any data usage occurs, including background data connections or automatic data syncing by phone applications or features. If you sign up for plan more than one time in a day or switch between plans, the daily rate for each plan will be deducted each time. **Day** is 12:00 a.m. to 11:59 p.m., based on time zone associated with your phone number. If call spans multiple days (e.g., starts at 11:58 p.m. and ends at 12:05 a.m.), you may be charged the daily rate for each day. **Plan Changes or Renewals:** When you switch between plans or renew a monthly plan, features or credits associated with your prior plan will no longer be available, and you are not able to switch back to some plans. Some plans will not allow early renewal. **International Talk and Text:** International calling applies to landlines in select countries only and decrements limited plan minutes (domestic coverage rates apply). Unlimited international calling requires qualifying unlimited domestic calling plan. Text messaging applies to mobile phones only; other types of international messages (e.g., picture messages) are charged per message. Calls and text messages must originate in U.S.; standard international roaming rates apply. **BlackBerry Internet Service (BIS):** Qualifying rate plan required; data usage restrictions of rate plan apply to BIS feature. Does not include BES access. **Prepaid General Terms:** Sufficient balance required to use service. Calls rated on a per minute basis and partial minutes rounded up; data usage rounded up to the nearest KB each use. Some plans do not permit use of features after included amounts are depleted. No cash redemption value. Non-refundable. Not responsible if lost or stolen. If you transfer your number to another carrier, your account will be deactivated and no service will be available. Devices sold for use on T-Mobile prepaid service are to be activated on that service, not transferred for resale, modification or export. **Data Usage:** Domestic and international roaming not available. Some plans include specified data speeds. Where indicated, full speeds available up to data allotment; after data allotment used, speeds slowed up to 2G speeds. **Your data session, plan or service may be slowed, suspended, terminated, or restricted** if you use your service in a way that interferes with or impacts our network or ability to provide quality service to other users, if you roam for a significant portion of your usage, or if you use a disproportionate amount of bandwidth. You may not use your plan or device for prohibited uses. **Downloads/Apps:** Additional charges apply; not all downloads/apps available on all devices. Not all sites optimized for mobile browsers. You obtain no rights in downloads; duration of use may be limited; may be stored solely for use with your device. T-Mobile is not responsible for any download lost due to your error. T-Mobile is also not responsible for apps, including download, installation, use, transmission failure, interruption or delay, third-party advertisements you may encounter when using an app, alterations any app may make to the functionality of your device, **including any changes that may affect your plan or service**, or any content or website you may be able to access through an app. **Messaging:** You will be charged for all data sent by or to you through the network, regardless of whether received. Character length or file size of messages/attachments may be limited. T-Mobile is not liable for any failures, delays or errors in any T-Mobile-generated alerts or notifications. **Coverage:** Service is not available everywhere. **Map Information:** Maps approximate anticipated coverage outdoors, which varies by location, may include limited or no coverage areas, and do not guarantee service availability. Within coverage areas, network changes, traffic volume, outages, technical limitations, signal strength, your equipment, obstructions, weather and other conditions may interfere with service quality and availability. Portions of the maps include networks operated by our roaming partners; we are not responsible for their performance. Devices not purchased from T-Mobile or an authorized dealer may not work on our network. **Roaming:** Nationwide roaming refers to usage while on a roaming partner's network within coverage area. International roaming incurs additional charges and refers to usage outside of the U.S. 850 Roaming Coverage requires a multi-band device. Certain devices and features will not work when roaming. If you travel outside of coverage areas, your device will not work. **Abnormal Usage:** Service may be limited or terminated for misuse, abnormal usage, or significant roaming. **Bill Details:** We do not provide bills to prepaid customers. Bellevue, WA 98006

Dear Kelsey:

Congratulations! This letter is to notify you that T-Mobile USA (“T-Mobile”) has completed the recertification process for the CTIA Consumer Code for Wireless Service (“Voluntary Consumer Code”) for the period January 1, 2011 – December 31, 2011, and is deemed compliant with the principles, disclosures and practices set forth in the Voluntary Consumer Code. Accordingly, T-Mobile is authorized to use and display the CTIA Seal of Wireless Quality/Consumer Information, subject to the terms and conditions set forth in the attached License Agreement.

Please ensure that the relevant employees of T-Mobile review the License Agreement before using the Seal. Use of the Seal constitutes acceptance of these terms and conditions. Upon request, we will provide two specimens (color and black/white) of the Seal for T-Mobile’s use on its website or collateral materials. If you should have any questions concerning the recertification process or use of the Seal, please contact Andrea Williams, CTIA’s Vice President of Law and Assistant General Counsel, at (202) 736-3215 or [awilliams@ctia.org](mailto:awilliams@ctia.org).

CTIA commends T-Mobile for its ongoing leadership and participation in the CTIA Voluntary Consumer Code, and we look forward to continuing to work with T-Mobile on this important industry initiative.

Sincerely,

*Congratulations!*
