

Nebonet.com
656 N Main #7
Nephi, UT 84648

Request to DENY waiver for Centurylink to federal funding.

We are located In Nephi, Utah Juab county.

We cover Nephi, Mona, Levan and surrounding area's. We have 14 access points and are adding an additional 7 to be completed by September 2012, to continue to provide the best product possible as the needs arise.

We currently have 591 Subs in these areas.

We do not rely on federal subsidies to our customers. We are a unsubsidized fixed wireless broadband provider.

We have been in business since the late 90's and continue to upgrade our equipment to provide our customers with the latest and best internet available. We continue to have ample capacity on our network for any for seen future growth.

It appears that Centurylink is motivated by a desire to receive additional funding because it chooses not to serve areas unless it obtains federal funding.

Nebonet.com would be harmed by Centruylink obtaining federal funding that would be used to compete with Nebonet.com, In order to maintain a competitive and fair trade environment, Federeal funds should not be used for competitive broadband, but should only be used in truly unserved areas, that are not financially feasible to do with private funding.

Inaccuracy in service plans offered. Correct info is below. See also Nebonet.com for current pricing.

Our base Rate is \$40 per month for an 8 meg connection.

We offer up to 20 Meg plan.

Install is based on term of contract. Month to Month is \$199, 2 year is \$49.

Current cap limits are 25 gig per month, although these are currently not being enforced. Our average customer uses about 8 gig per month, and our highest user is about 350 gig per month.

Our estimated annual rate for our client would be \$680 for a Non contract Customer, \$529 for a two year contract.
