

At the end of the trial the company will submit all the data required by the Public Notice. In addition, the company is willing to share other relevant observations with USAC relating to the trial.

SECTION II – OFFICER CERTIFICATIONS

Attached as Exhibit 6 are the officer certifications required by the Public Notice.

CONCLUSION

Choice Communications, LLC has demonstrated that it meets all the requirements of the Public Notice and provided the certifications required by the Public Notice. Choice Communications, LLC requests that its application for funding for the pilot program be approved in accordance with the Public Notice and the details provided in this Application.

Exhibit 6

OFFICER CERTIFICATION

The undersigned, Tony Shepherd, a duly authorized officer of Choice Communications, LLC, (the “Company”) in support of the Application to which this document is attached, certifies under the penalty of perjury:

- A. That the Company intends to offer the broadband service pursuant to the Commission’s rules and regulations for the Lifeline program as described in the Application to which this certification is attached;
- B. That the Company will implement all necessary procedures and efforts to prevent waste, fraud and abuse in connection with its participation in the Pilot Program, including but not limited to procedures that the ETC will have in place to prevent duplicate broadband subsidies within its subscriber base, and procedures the carrier undertakes to de-enroll subscribers receiving more than one broadband discount per household;
- C. That the Company’s broadband service offering(s) will provide sufficiently low latency to enable use of real-time applications such as Voice over Internet Protocol (VoIP) and if there are usage limits for each plan, that they are reasonably comparable to usage limits for comparable broadband offerings in urban areas; and
- D. That the Company will participate in the collection and sharing of anonymized qualitative and quantitative data with standardized data elements, formatting, and submission requirements, and that the Applicant will participate in workshops to discuss interim and final results of the project, and how best to use limited universal service funds to increase low-income consumers’ adoption of broadband services.
