

I have asked for a quote on Heath Insurance and the calls are bombarding! The same number keeps calling and will not identify themselves and they call on the average of 11-15 times a day. The telephone number is 360-474-3298. As a result, I must keep my phone off in order to get piece! I checked on the number and it is definatly a telemarketer but it would not give a name of the company or person. Is there anything we can do about these people? All I wanted was a quick quote and this company has been calling for weeks now.

Thank you! Gail Isler
