# Miracle Temple Deliverance Ministries, NC

## Exhibit 1

Miracle Temple Deliverance Ministries (MTDM) broadcast is locally produced weekly church worship services. Miracle Temple Deliverance Ministries is located in Burgaw, North Carolina. MTDM weekly broadcast is a 30 minute program aired at 6:00am on Sunday Mornings. This weekly broadcast is aired in a local viewing area. It is a crucial part of our outreach ministries. It assists us in getting the good news (Gospel) in rural areas and people lives are being transformed through the Word of God that is broadcast through our weekly programming. It is part of our mission "the Great Commission". The Word of God is being broadcast in the prisons, in people's homes and it is delivering, encouraging and edifying the masses. MTDM is produced by volunteers that donate approximately 24 hours a week to produce our television broadcast. The value of the volunteer time is estimated to be \$360.00 per broadcast. The utilization of volunteers has allowed us to continue our programming and provide worship service to the many individuals that are thirsty for the Word of God. MTDM does not employ a broadcast media staff. We equate our current production cost per broadcast to be as follows:

### Current Cost of MTDM Broadcast (per broadcast)

WSFX Air Tim	\$ 65.00
<hr/>	
Total Cost (Current)	\$ 65.00
Total Annual Cost	\$3,380.00

### Total Cost with Closed Caption (per broadcast)

WSFX Air Tim	\$ 65.00
Supplies	\$ 15.00
Shipping	\$ 20.00
<b>*Closed Caption Services</b>	<b>\$200.00</b>
<hr/>	
Total Cost (Cost with closed caption)	\$300.00
Total Annual Cost (Cost with closed caption)	\$15,600.00

The cost of Closed Captioned Programming will increase our Broadcast Cost 361%  
This increase imposes an undue burden on the ministry.

\*Extensive research of Closed Caption services indicates that following cost factors to obtain closed caption on broadcast. There are mirages of companies that provide the services. However the cost for the service is consistent. Of the many companies researched the three companies listed below prices

were the most cost efficient. Nevertheless the cost efficient pricing increase our Broadcast cost 361%. The companies that were researched are as follows:

Closed Caption Maker \$200 per 30 minute Broadcast (Attached Exhibit 1)  
1955 Kensington St  
Harrisburg, PA 17104  
1-800-527-0551  
[www.CCmaker.com](http://www.CCmaker.com)

CPCweb \$360 per 30 minute Broadcast (Attached Exhibit 1)  
1010 Rockville Pike # #306  
Rockville, MD 20852  
1-800-977-6678  
[www.cpcweb.com](http://www.cpcweb.com)

Video Caption Corporation \$ 395.00 per 30 minute Broadcast (Attached Exhibit 1)  
88 Hunns Lake Rd  
Stanfordville, NY 12581  
1-800-705-1203  
[www.vicaps.com](http://www.vicaps.com)

The above reflect outsourcing broadcast production of closed captioning services. We currently operate our broadcast team with member volunteers. In-house production with closed captioning is not an alternative it would impose a significant burden. Software, Equipment Cost and Staff would be as follows:

Broadcast Media Staff	\$22,500.00
Software, Training and Equipment	\$ 8,500.00
Airtime	\$ 3,380.00
<b>Total cost of In-house Production with captioning</b>	<b>\$46,975.00</b>

Financial resources are not available as indicated on Financial Statement to pay staff and purchase equipment necessary to produce close caption programming.

**Petition for Exemption from Closed Captioning Requirements**

Miracle Temple Deliverance Ministries (MTDM), submits this Petition of Exemption pursuant to 47 CFR section 79.1 (f) of the Rules and Regulations of the Federal Communication Commission.

In Implementation of section 305 of the Telecommunication Act of 1996 – Video Programming, Accessibility, the commission established rules and implementation schedules for the closed captioning of video programming. In enacting section 713 Congress recognized that in certain limited circumstances the costs of caption may impose undue burden on video programming providers or owners and it authorized the commission to adopt appropriate exemptions. The statue requires the commission to consider the following factors:

- (1) The nature and cost of the closed caption for the programming
- (2) The impact on the operation of the provider or program owner
- (3) The financial resources of the provider program owner
- (4) The type of operation provider or program owner.

A petition of exemption must be supported by sufficient evidence that demonstrate compliance with the requirements to close caption video program will cause an undue burden.

This petition provides sufficient evidence to determine undue burden as defined by congress to be “significant difficulty or expense”. Outlined in Exhibit 1 are the Nature and Cost of the Closed Caption. **The cost of Closed Caption (only this does not include air time) would be \$10,400 per year. The church current program air time is \$3,380 per year.** Our program is a public service and has little to no repeat value. As outlined in Exhibit 1 the cost of providing closed caption is a 361% increase in what the ministry is currently paying to air its broadcast. This additional cost will impact our operation and will impose a significant increase in financial resources. The financial resources of the Miracle Temple

Deliverance Ministries indicate no surplus in the budget to pay for the captioning services. WFSX Television and Apex Media (distributors of Programming) have not indicated their ability to offset or contribute to Captioning services. MTDM programming provides a vital service to the community. It teaches the precepts and concepts of the Word of God, it provides encouragement to those who are oppressed or depressed, it provide deliverance from those who are in bondage to life. Furthermore, MTDM believes that the local, non-news exemption to the closed captioning rules also applies to Miracle Temple Deliverance Ministries Broadcast. As noted above, the program is produced and distributed locally, and the sermons of Miracle Temple Deliverance Ministries and/or an unscripted talk show Christ Lives in Me with Apostle Amanda Walker Bryant are primary local public interest. The episodes are not news, they do not have repeat value, and the electronic newsroom technique is not available. Notwithstanding the applicability of the exemption, we have filed this petition in abundance of caution and for the purpose of establishing certainty.

Therefore this petition is respectfully submitted as shown by this petition and its attachments, the commission should grant a waiver of the closed captioning requirements in this case, because requiring closed captioning would create an undue burden. The cost of captioning would be excessively high and would have significant impact on Petitioners operation.

Respectfully Submitted

Hi Missey,

It was a pleasure speaking with you earlier! Video Caption Corporation would be delighted to assist you with the Closed Captioning of your weekly 30-minute English language religious program. As I understand it, you would provide your program to us on DVCPRO. Our deliverable to you would be a Closed Caption Master (Basic Roll-up Style Captions) with V-chip encoding on BetaSP and one additional copy on BetaSP.

Pricing: \$345

Price includes transcription, Basic Roll-up Style closed captioning, encoding to BetaSP, V-Chip encoding, one additional copy on BetaSP, and tape stock. As we discussed standard turnaround for your project would be 3 business days. Expedited turnarounds (including same day) are available for additional charge. As per your request we can give you approximate rates on shipping and handling. If we were to ship your tapes to you using Fed Ex it would be \$52.06 for standard overnight delivery and \$24.13 for Fed Ex 2Day delivery. If we were to ship to the station it would be \$49.95 for standard overnight and \$22.02 for Fed Ex 2Day.

I'll follow up with you tomorrow to discuss our quote and answer any questions you may have!

Best Regards,

Maria T. Vondras

We have a booth at Government Video Expo  
DC Convention Center, Nov 30 - Dec 1, 2011

New support for NLE systems. 10/27/2011

We can now create an SCC file for FCP7!

The SCC file adds captions during "print to tape" to your  
BetaSP tape or DVDs.

This process works with some HD deck systems.

We are working on CCing HD video; tape and file based.

We add closed-captions to the video you  
produce

**Church & 30-minute Infomercials:** \$200 for half-hour program.

Includes transcribing, tape, 2nd day Fedex shipping.

We do these a special way to reduce manpower; thus lower cost (We call it "just do it").

We transcribe it, format the text, and then create the CC master.  
Meets FCC captioning requirements. Special: Cost is \$150 for a weekly series.

New 10/30: Can you submit your CCed video on DVD to your TV station?  
If so, we can create a 'caption file' which adds CC to the DVD; all done via the Internet.

No additional hardware is required. Call for a test 'caption file'.

## TV Spots

TV Spots are \$50 per spot (:10 to :60); plus \$30 for new tapestock and Fedex.  
Script must be supplied on disk or emailed. Turnaround is two business days or less.

## Music Videos

Music Videos (up to 5 minutes) are \$100, includes BetaSP/DVcam videotape and shipping.

Script must be supplied on disk. Additional BetaSP/DVcam copy is \$35 (includes tape).  
(We do not support DigiBeta decks)

# Add Captions to streaming video on the web!

## (Windows Media Video, Quicktime, Flash)

We do captioning to streaming video for:

GSA in DC, State of ME, State of MN, and the VA/Baltimore Medical Center.

You put the video on your server and we create the companion captioning file(s) for the player.

Take a look at our demo using the Windows Media Player: (you need to turn captions 'on' on the WMP)

("Right-click and "open in new window") Do not double-click here.

[Run Windows Media Player with demo](#) (works with vista)

[Run Video on IE page using the Windows Media Player.](#)

[Run Quicktime Video \(mov\) with captions](#) (link ok with IE or FireFox)

[Click here to play Flash Video \(flv\) with captions in new](#)

window.

(using our free Flash Player)

(Easy to install; put the files we supply in a single folder on your website and add a link on your page. Player has unique features for viewing captions.

[Click here to play Flash Video \(flv\) with captions on your page.](#)

(using our free Flash Player)

Play a Flash video on your page is more difficult (html coding) than playing a video

in new window.

The XML-TimedText file we create is also used in CS3/CS4 and JW Flash Player

**\$5 per minute of video; client supplies video file and a script file.**

Add \$2/minute if word-for-word script is not supplied. Minimum of \$15 per file.

**College special: 25% off if single video is longer than 30 minutes.**

## **Add Subtitles to DVDs using DVDStudioPro**

Adding subtitles to a DVD you create in **DVDStudioPro** is not fun. **DVDStudioPro** includes a subtitle editor but the process of using it is painfully slow. The process: you create a subtitle block, set the in/out timecode points, check the sync, then move onto the next subtitle block. We just did the subtitling for a 20-minute DVD – it contained 316 subtitle blocks!

A better and more cost effective way is for you to FTP us your videos in mp4, we create a STL subtitle file which you import onto a subtitle track. You still have to make minor adjustments to some of the text blocks. You have the same options as if you had manually created the subtitles; font, font size, color, position, and timecode in/out points.

We have a MAC with **DVDStudioPro** so that we can fully test the STL file before sending it to the client. We are a PC shop but purchased this system because there are so many horror stories on the Internet concerning **DVDStudioPro** and subtitles.

If you have an interest in this service, email me and I'll email you a 'test' STL file with instruction on how to place it on the subtitle track. You can use any video, the demo just illustrates how easy it is to use an STL subtitle file.

**\$5 per minute of video; client supplies mp4 file and a script file.**

**\$50 minimum.**

# “Do your own Captioning”

(units now in-stock)

**ADDrollupCC** (post-production only)      \$1600 (hardware & software)      New  
Price 8/'10

This closed-captioning system integrates into your editing system and adds 'rollup' type captions to the video you produce. **ADDrollupCC** was designed to meet the closed-caption needs of a church, 30-minute infomercials, or in-house training videos. **ADDrollupCC** adds line-21 closed-captions as you copy the video from your EditingSystem/Deck to your Record Deck.

**ADDrollupCC** includes a professional line-21 closed-caption encoder manufactured by Link Electronics; encoder supports composite, S-vhs, and component video. The encoder connects between your EditingSystem/Deck and your Record Deck.

To download ADDrollupCC Demo, right click and do a 'Save Target As',

(you must unzip the file and then do the install)

To download a diagram of the system,  
right click and do a 'Save Target As': this is a pdf file.

## Transcribing Service:

We do 'draft level' transcribing for \$1.50 per minute.

Draft level means we do not research words we don't know how to spell.

You use the Internet to send us an mp3/wma of the audio and we email back a text file.

(We can create a time stamped file; no extra cost)

# “VHS/DVD videos used in the Classroom”

This unique college/university service was designed to make existing VHS/DVD videos in your school's library accessible to a deaf/hoh student. Client sends us a non-captioned VHS/DVD video and we return it unaltered plus an open-captioned DVD.

Cost is \$4 per video minute which includes transcribing, videotape; add \$15 for shipping.

Thus, a 30-minute video is exactly \$135 (\$4 times 30 plus \$15).

We sell a hardware/software system (see ADDrollupCC above) which enables a college to do the captioning in-house.

Cost is \$995; we have some used units for \$700! This is the system we use to do the captioning for you.

Designed so that a work-study student can do the captioning; Easy to use; there is NO user manual!

**Warranty and Liability:**  
 Evertz warrants all of its products manufactured by Evertz against defects in materials and workmanship for a period of one (1) year from the date of original purchase. If you transfer ownership, this warranty is automatically transferred to the new owner and remains in effect for the original one (1) year period.  
 During the warranty period, we will repair or at our option replace at no charge any unit that proves to be defective, provided it is returned after proper authorization, with shipping prepaid to an identified Evertz repair center.  
 This warranty is expressed in lieu of all other warranties including implied warranties of merchantability or fitness. In no event will Evertz be liable for any special incidental or consequential damages.  
 Evertz liability under this warranty shall be limited solely to the cost of any necessary repairs to, replacements of or refunds of Buyer's purchase price for, the Products, components thereof or replacement parts thereof, and Evertz assumes no risk, and shall not in any case be liable, for any special, incidental or consequential damages, or any other indirect damages arising from breach of warranty or contract, negligence or any other legal theory, including, without limitation, loss of good-will, profits or revenue, loss of use of the Products or any associated equipment, cost of capital, cost of any substitute, facilities or services, down-time costs, or claims of any party dealing with Buyer for such damages.
