

I was contacted by a person (Timothy Jones)?? from a company called Account Services Financial. He was calling from a Brooklyn based cell phone 917-255-7015. Supposedly his "firm" would negotiate to have my credit card interest rates lowered. He said the company phone number was 800-847-2911. He said they contract with the lenders to negotiate lower rates for consumers. I didn't get far enough to ask what he was "selling", because it was obvious to me that this was fraud, (once he asked for my Discover card account number.
