

Tuesday July 24th, 2012

Ms. Susan Stevens-Miller
Wireline Competition Bureau
Federal Communications Commission

Dear Ms. Miller,

Thank you for the opportunity to address your questions regarding the penetration rates of our Robbs Creek rate center/exchange.

Based on our most current research, Allband has approximately 1.2 eligible customers per square mile or approximately 212 eligible customers in its exchange.

Currently Allband has 147 members who per Cooperative policy are required to subscribe to telephone service and of the 147 members, 78 are Internet subscribers.

Therefore, Allband has a telephone penetration rate of 69% and an Internet penetration rate of 36%.

If you have any further questions, please do not hesitate to contact me.

Best Regards,

Ron K. Siegel
General Manager
