

I do not believe that this is only not good for the Consumer (competition), I believe the Verizon CEO, Lowell McAdam will use this to gut Union jobs. He already has an Anti-Union slant because when he was the CEO of Verizon Wireless, he successfully suppressed the Employees right to be represented by a Union, and although I do not agree with everything Unions do, it is a necessary thing as they do protect Workers rights, whereas without a Union people like he can run roughshod over Employees, basically treating them like indentured Servants, while people of his ilk enrich their wallets in a greedy fashion.
