

We have had enough of the way you have allowed companies to be able to gouge the American People. This so called farce called free monopoly is made of non effect by the under table deals made by these companies. Strict regulation needs to be made and a review of revenues need to be considered before these deals are permitted and before any rate hikes are considered. And by the way, this sham of allowing the T.V signals to go to the companies, with the promise of better viewing for those not willing to get cable, has been a black eye for the fcc
