

I am here to oppose the monopolizing that Verizon Wireless and the nation's largest cable companies including Comcast and Time Warner are doing! I am aware they they have signed a deal to come together and sell each other's products and services.

If the deal between Verizon Wireless and the other large cable companies goes through, it will end up costing much more than the price of my cable and internet bill!

The lack of cable competition will send the cable and Internet rates up, but the hidden costs to us consumers will be farther reaching than this. With no competition, Americans will lose the freedom to choose between providers. There won't be a choice! And with no incentive to keep up with improvements, communities will lose the chance to connect to a high-speed future.

Please put a stop to the monopolizing!

Sincerely, a concerned voter
