

I am completely against the merger with Verizon and the cable companies. Once this deal is complete, they will ship all these jobs overseas. Can American really deal with 70,000 more unemployed in the horrible economy? We are trying to fix America, let's fix it by keeping our OWN jobs here in the USA! Verizon is determined to DESTROY middle class jobs. If they get a way with this, other companies will follow the downward spiral and then the USA will be in a depression, not a recession!! DO NOT let this deal go through. Keep our hard working AMERICANS working here!!!!
