

919-792-6460, keeps calling my I phone number at all hours of the night. No one is on the phone and when I pressed "ignore call" it sounded like it took a picture. Last night alone they called at 12:15AM, 2:58AM, 4:41 AM, 7:11AM, & 8:28AM. I googled the number and it appears many people have experienced the same problems as I have. Please check into this.
