

#972-280-7286 is a Norfolk inmate caller. I know no one in Norfolk, Va, muchless an inmate. Nor do I believe this person just arbitrarily dialed my number. Since I changed my plan from unlimited to free cell to cell only, I have received many abusive practices from landline callers, including silent calls, and many calls that have been reported before online on many different sites. When does the government get involved and stop this illegal behavior? And if it's not illegal, it should be. If I made silent calls, hangups, and collect calls to people I do not know in order to harass, cause them distress, and financial harm, I would be charged with something, I garuntee you! It is also upsetting that my complaint against this number and several others failed to process after I hit submit.
