

I am very disappointed in the process and the disrespect that I have felt from Global Tel Link. I set up an account with ConsCall Home on July 23rd and have jumped through hoops with gtl to get the block taken off my phone. With one more thing to do each week. It has costed me money to not recieve a service because of gtl not adhereing to the federal regulations. I would like to know if there is another company to go through too get phone calls from my incarcerated husband. I am very upset that I am loosing the 37.00 that I put down for this number. Thank you for your support Olive Morrow
