

FCC ~ as a government agency, paid for by OUR tax dollars, you had better listen to we the consumers. Keep ignoring us as consumers, as an agency, you'll find out your jobs are not as secure as you think. This whole plan reeks of kick backs, favortism, etc. Need I remind you, some jobs of congress and the senate are not that secure. We Americans are getting tired of the political in-fighting and not getting any thing done! Pay attention ~ You work for WE THE PEOPLE!!
