**Re: *Lifeline and Link Up Reform and Modernization, WC Docket No. 11-42;*
Federal-State Joint Board on Universal Service, CC Docket No. 96-45;
*Lifeline and Link Up, WC Docket No. 03-109***

Dear Ms. Dortch:

On April 25, 2012, USTelecom filed a Petition for Waiver¹ (Petition) of section 54.407(d) and sections 54.410(b)(2) and (c)(2) of the Commission's rules with respect to certain eligible telecommunications carrier (ETC) compliance obligations in particular states identified in Appendix 1 of the Petition. Specifically, beginning June 1, 2012, ETCs are required to obtain a subscriber's certification form, which complies with section 54.410(d), before the ETC may seek reimbursement for providing Lifeline to that new Lifeline subscriber. In those states where a state entity performs the Lifeline eligibility determination for some or all subscribers on behalf of some or all of the ETCs in that state, those ETCs must obtain a copy of the subscriber's certification form from the state before the ETC may seek reimbursement for that new Lifeline customer. The waiver request applies only to those ETCs that are required to enroll customers for whom the state has determined the Lifeline customers' eligibility, but where the state does not provide subscriber certifications to the ETC, and will not by June 1, 2012.

USTelecom respectfully withdraws the state of Washington from Appendix 1 of the Petition. Based on informal discussion between ETCs and representatives of Washington, ETCs have now taken responsibility for obtaining Lifeline certification forms from customers.²

Please do not hesitate to contact me with any questions,

Sincerely,

A handwritten signature in black ink, appearing to read "David B. Cohen".

David B. Cohen
