

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, DC 20544

In the Matter of
SMS/800, Inc.

CC Docket No. 95-155
WC Docket No. 12-260

COMMENTS OF ONESTREAM NETWORKS LLC

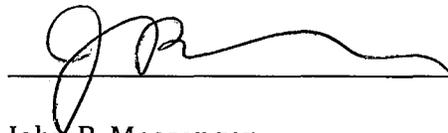

Pursuant to the Wireline Competition Bureau's Public Notice DA 12-1502, released September 17, 2012, OneStream Networks, LLC, hereby comments on the "Petition to Change the Composition of SMS/800, Inc.," filed September 13, 2012 (the "Petition").

The Petition seeks permission to change the membership and governance of SMS/800, Inc., in order to expand control of SMS/800 from the Bell Operating Companies ("BOCs") alone to the broader industry served by SMS/800. OneStream Networks approves and supports the goals of the Petition.

OneStream Networks is a leading global provider of enterprise-grade hosted and managed IP communications to business customers in over 50 countries and 4,000 cities worldwide, headquartered in Rochester, NY. Global SIP trunking, hosted telephony, contact center applications, converged data services and other cloud based services are delivered and managed via the OneStream MPLS network or via a third party MPLS provider.

OneStream Networks' offerings to its enterprise business customers include toll-free service. OneStream Networks therefore has an interest in making sure that the administrative and management functions historically undertaken by SMS/800 are performed competently and impartially as the industry continues to change. In furtherance of that goal, OneStream Networks favors placing responsibility for these functions in the hands of an independent entity representative of the industry at large, and not affiliated with any particular provider or class of providers. Because the Petition is designed to accomplish this, OneStream Networks supports it.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'JB Messenger', written over a horizontal line.
