

I am not filing a complaint, I just had a question:

I am a verizon wireless customer and have been for the last

17-18 yrs. never had any problems until now. They do not want to honor my current plan. Right now I have nationwide 1400 and unlimited data. I want to upgrade my phone and keep the same plan but they say they don't have unlimited data anymore. If i keep my same phone i can keep my same plan if I upgrade I can't. Question can they do that
