

Although I've been an AT&T consumer for over 27 years, I've been receiving harassing phone messages from Verizon Wireless for a Latoyia Mason (last month the messages were for other people). They have been constantly calling my phone for about six months and leaving messages for random customers. My caller ID shows 706-993-1435. When I call that number back I hear a call center message for Latoyia Mason with her call center number of 770-853-2377. It is quite frustrating for me since Verizon Wireless keeps blocking my cell phone service with these fake phone messages.
