

I believe that GTL is being unfair to the families and friends that have a loved one incarcerated. These phone calls are very important to us, and charging outrageous amounts and blocking our calls if we try to use another company should be against the law. My husband is incarcerated approximately 2 miles from our home , yet I am being charged \$17.50 plus a connection fee for a 15-minute phone call ! I am disabled and on a fixed income, so it makes it almost impossible to be able to talk to my husband. Please check into this . Thank you for your time. Sincerely, Linda Jacobs
