Re: Uniden Request for Waiver of Section 95.419 of the Commission's Rules

Dear Messer's Derenge & Jackson:

On October 2, 2012, I submitted a letter addressing the proposed power for the CB wireless microphone as proposed by Uniden Corporation of America ("Uniden"). Overlooked in that letter was the estimated range Uniden reasonably expects from the operation of the wireless microphone. This letter is submitted to supplement that letter with that information.

Based on the tests conducted by Uniden and described in my prior letter, when used in a typical tractor-trailer truck rig, Uniden estimates the range of the wireless microphone to be approximately 25 to 30 meters.

Please advise if further information would be useful.

Sincerely,

Gregg P. Skall
Counsel to Uniden America Corporation
