

I think that we should get to decide which local channels that we want when subscribing to a satellite tv company. I don't think that you should be able to decide that for us. I live 30 miles from the Waterloo- Cedar Falls and an hour and forty-five minutes from Des Moines. All our sports and news is locally from Waterloo-Cedar Falls but you decide our local channels are Des Moines. I could care less about high school sports in Des Moines!! This needs to be changed to allow for US to decide what local channels we get through our service not YOU!! In order to get the local channels of KWWL I have to PAY more to get an antennae installed and more money for a box to view it. That is bull!!! I will tell everyone I know to also send notice to you that this needs to be changed!!!! By-the-way.... How does Mediacom get by with us having channel 7 KWWL as well as the Des Moines channels that we are forced to have???? Either they are illegally doing it or you are showing favoritism....either way, NOT right!!!

Sincerely,

Brenda Drake
