

As a Cablevision subscriber living in the northeast sector, I am attempting to notify the proper authorities about the 3 months and counting blackout of WPIX and associated stations due to the dispute over distribution fees between Cablevision and Tribune Broadcasting. These companies have been NOT coming to an agreement for three months now and things are beginning to seem ridiculous. Please investigate and/or forward this to the proper channels so that I and other Cablevision subscribers might get our full promised programming that is carried on that network (sports shows, evening programs, news broadcasts, etc.)
