To Whom It May Concern:

I am writing this letter in regards to the closed captioning on my television program. I tape & air this show as a hobby and cannot afford any additional cost. If I have any more cost involved I will be in the negative with production. I have included a simple cost breakdown at the bottom of this page. As you can see I do not make a profit, I only cover my cost.

The second problem with completing closed captioning is time constraint. The production company does not, and will not produce the show with closed captioning. By the time we tape the show it is due at the station the next day. If I send it off to have the closed captioning completed, I would miss having it into the station on time. If we taped the show in advance it would double our production cost. These options make my hobby undoable.

Thank you for the time and understanding that I am only doing this for a hobby, and not attempting to make a living.

**Cost Analysis**

Production Cost	\$1,300.00
Air Time	\$1,100.00
Total Cost	\$2,400.00

We charge each guest \$485.00 to be on the show. We have 5 guests per month which totals \$2,425.00. Once again this is a hobby so I am just covering my cost.

Sincerely,

  
Jessica Schneider
