Political Spam SMS Complaint

On 20:47 30 Oct 2012 I received the following unsolicited text message from sms@obamaliesett.com:

/ ObamaCare: a \$700 BIL gamble where Medicare recipients take the risk. Stop Obama!

I have had no contact with obamaliesett.com prior to their sending me spam. I am not interested in hearing from them, and believe the text message I received from them to be not only unsolicited but inaccurate and unwanted.
